Court of Inquiry Required All Night  
in Going Into Facts of "Condi-  
tions as They Exist"

A general shake up of conditions as they exist in the Rushville armory, is expected to result within the next day or so, following a meeting of the military board of Indiana, held here this week by order of Governor Warren T. McCray and Harry B. Smith, adjutant general of the Indiana National Guard.

The state board was convened upon the official call last Saturday in Indianapolis and was sent here Monday night of this week to hold a military council and investigation, it was disclosed today in an interview with the secret service investigator who has been working on the local situation for several days.

The military board, who conducted the court of inquiry here, consisted of Captain Clarence Wyson, Captain E. L. Shilling, M. H. C., and Major A. H. Whitcomb. The purpose of the meeting here on the orders of Governor McCray set out the fact that the "thefts at the Rushville armory and conditions as they exist" are ordered investigated.

The board began their session Monday night at 7:30 o'clock and according to the special investigator for the inquiry took the greater portion of the night, and the board left here on the five o'clock traction car for Indianapolis in the morning, following the all night conference.

In all, nineteen witnesses were examined, and their written testimony obtained. The board was expected to make a report on their findings today or Friday.

The witnesses not only included guardsmen, but also persons "outside" of the guard company, and several witnesses were brought here from distant cities, and their testimony obtained.

Further investigation is under way by the authorities.

It will be recalled that three mem-

## COUNTY ASSESSORS IN CONFERENCE HERE

Meeting Wednesday Devoted Mainly  
to Discussion of Personal Prop-  
erty Valuations

WEATHER KEEPS MANY AWAY

Eight county assessors from this section of the state met here Wednesday with Walter Bridges of Greenfield, representative of the state board of tax commissioners, and discussed valuations of personal property and other matters in relation to the spring assessment which will begin March 1.

The values which will be placed on farm property were the principal topics for discussion and the county assessors will base their recommendations to their township assessors regarding valuation largely on what was developed in the conference here.

Assessors present were: Hancock county, Marshall Bussell of Greenfield; Henry, Milt H. Kern of Newcastle; Fayette, Scott Thomas of Cornersville; Johnson, Frank Etter of Franklin; Union, Charles H. Little of Liberty; Madison, J. M. Kaufman of Anderson; Decatur Adolphus Bayless, Greensburg, and Earl Priest of Rush county.

Assessors were expected from Wayne, Randolph, Delaware, Ripley, Dearborn, Franklin and Bartholomew counties, but the condition of the weather kept them away.

Many Rushville People Hear Concert  
By Former Musician

A number of people in this city, who have radios, heard Mrs. T. L. Jones sing last night, on a program broadcasted from station KFKB Milford, Kansas, at the Brinkley-Jones hospital association, about two hundred and fifty miles south west of Kansas City, Mo.

Mrs. Jones, was formerly Miss Mary Louise Poe of this city, her parents, Mr. and Mrs. Jesse Poe, being among those who were able to listen in on that broadcasting station. Mrs. Jones, at the conclusion of her number, broadcasted a greeting to her parents in this city.

## WEATHER IS STILL HOLDING REIGNS

Schools and Many Other Scheduled  
Affairs Give Away to the Ice and  
Cold Elements

FRIDAY MAY BE WARMER

Coldest Last Night Was 14 Above  
And Weatherman Promises In-  
crease for Tomorrow

Weather conditions today did not aid much in travelling over the country roads, and only a few of the township schools opened this morning, with the greater portion of them being in a recess on account of the weather.

The weather has caused a postponement of many things this week, and a Jubilee at the Glenwood school for tomorrow night was carried over until next week, and a meeting of the high school principals for today was also postponed until a later date, as the school officials could not all reach the Milroy school, where the session was to have been held.

Even the weather caused a postponement of the girl's basketball tournament, scheduled for Saturday in this city, as the school officials were afraid that the icy roads would prevent a good crowd.

In all of the icy weather, the rural route carriers at the Rushville postoffice have established a record of not missing a single patron this week although in many places people on their routes urged them not to attempt the deliveries.

Telephone communications that were damaged by the sleet and ice were being repaired today in all parts of the county, as several of the lines were out of order this week on account of the storm.

The weather indications for tonight are continued cold, with the mercury near 15 degrees, and warmer weather is predicted for Friday.

The mercury last night went to 14 degrees above zero, according to Elwood Kirkwood of Maunzy, in charge of the government thermometer.

In addition to the trouble of the Rushville telephone company in having lines broken and poles down, the exchange at Mays, owned by the Spielman company, was out of commission on account of the ice and cold.

The main cable leading into the office was pulled out of the building, and many of the wires were down, which will probably keep Mays isolated for a few days.

## ANOTHER HAT IN THE RING

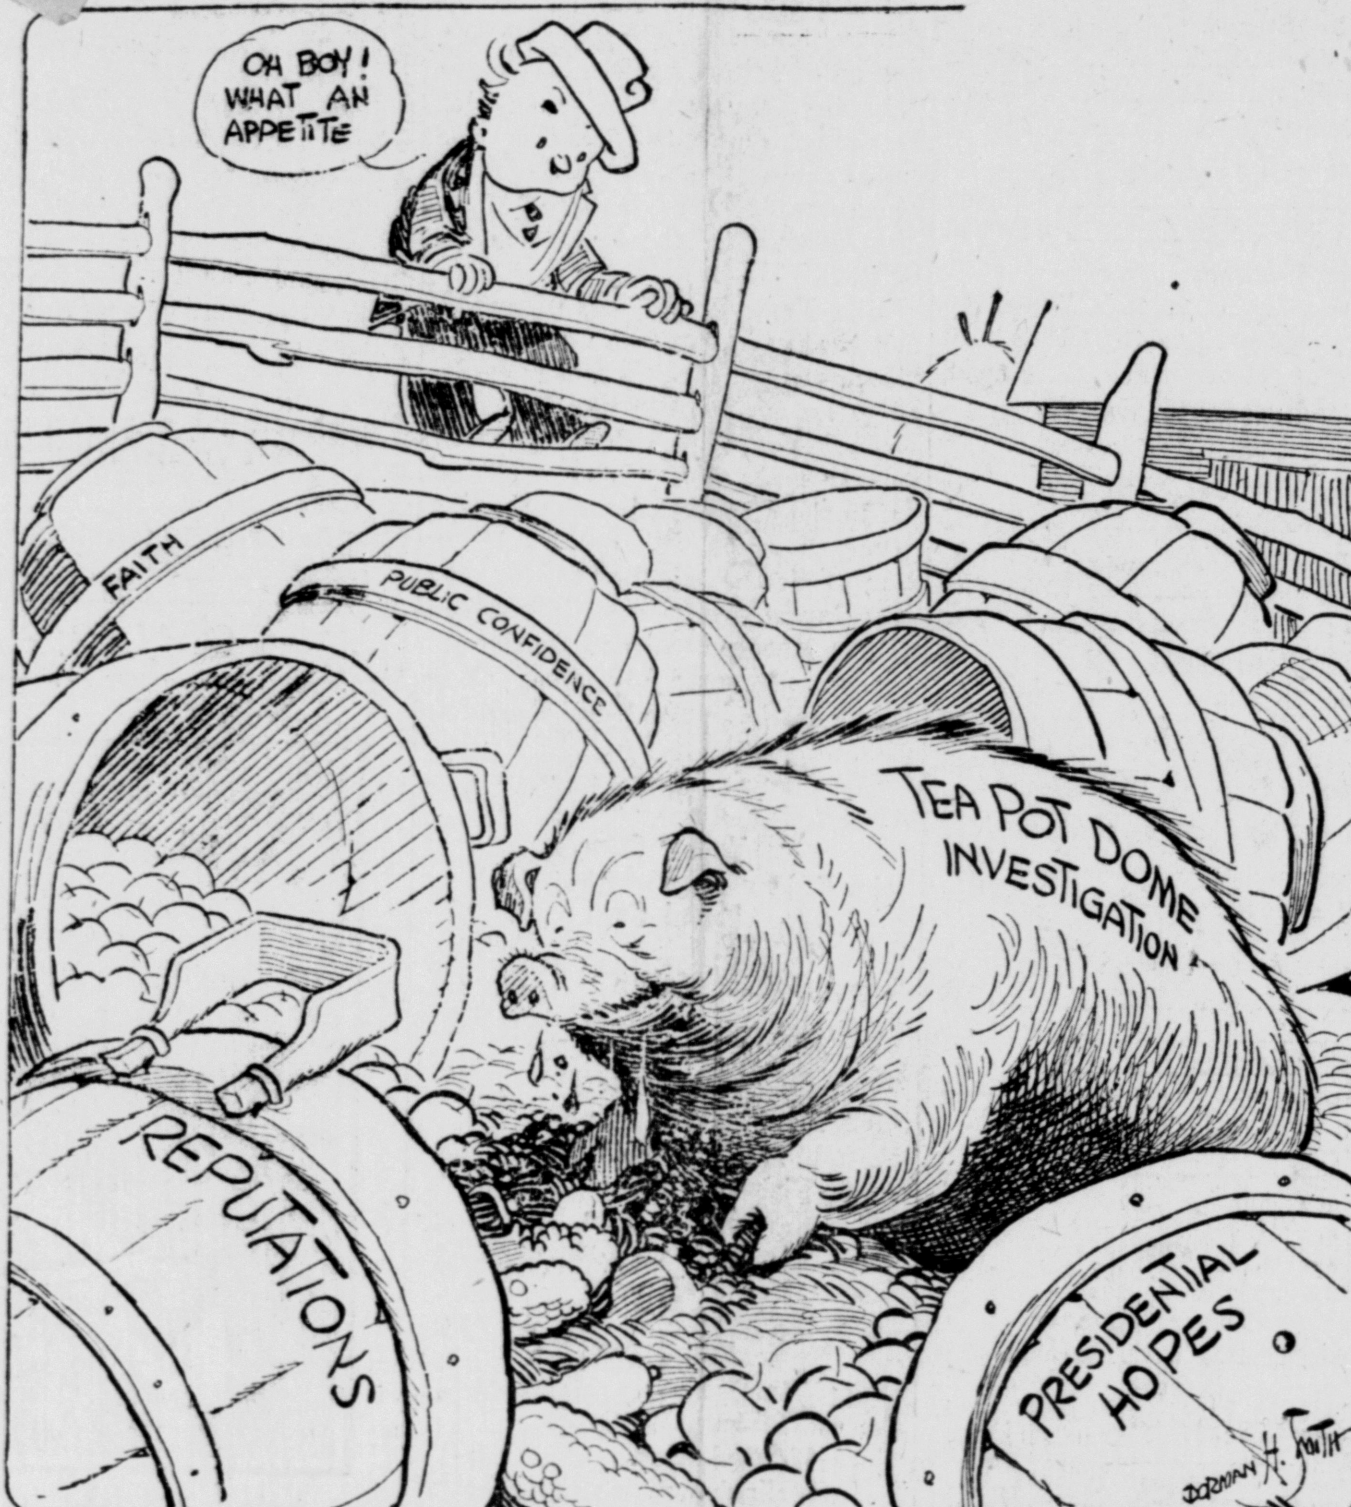

William Morgan Comes Out For G.  
O. P. Nomination for Sheriff

Another hat went into the cluttered up political ring in Rush county today when William Morgan, farmer living east of Rushville, announced that he would be a candidate for the Republican nomination for sheriff in the primary election May 5.

Mr. Morgan was a candidate for the nomination at the primary two years ago and was defeated by S. L. Hunt, the incumbent, who is now serving his second two-year term.

Five other republicans have announced their candidacies for nomination this week.

## LATIN CONTEST STARTED TODAY

Students in Rushville Schools Begin  
Process of Picking Winners in  
Three Divisions

COUNTY TEST ON MARCH 22

County Winners Will Then Indulge  
in Contest With District And  
State Pupils

Latin students in the Rushville high school today were participating in the preliminary contest, which will terminate in district and a state contest, naming a winner for the state in achieving the highest average for a school.

The contest is divided in three divisions, with the Freshmen being listed in the first division, the Sophomores in the second division, and the more advanced students being classed in the third division.

The Latin contest in the Rushville schools was in charge of Miss Helen Jaehne, local instructor. In the contest today were 14 in class one, and 9 each in the other two classes.

When the grades are given, each of these divisions will have winners to represent the Rushville city schools in the next step for elimination. Three winners of each division will be chosen from the best grades attained today, and these winners will then take part in the county contest, to be held here March 22.

All of the high schools of the county will send their school representative here on that date for the contest and the three winners in the classes will then be named to represent the county in the district contest.

The district contest will be for all high schools in the Sixth district, composed of the eight counties Wayne, Union, Fayette, Franklin, Henry, Hancock, Shelby and Rush. The district contest will probably be held in Rushville this year, and was held in Richmond last year. The date for the district contest will be April 5. The winners of the 13 districts in the state will then fight it out for the state honors at Indianapolis at a still later date.

The Rushville Latin students have great hopes of winning many honors, and much interest is displayed in the event.

## PATRIOTIC SPEECH BY ANDERSON MAN

Oswald Ryan Delivers Address Com-  
memorating Washington's Birth-  
day to Kiwanis Club

FAVOR ORATORICAL CONTEST

Washington's birthday was observed today at the weekly luncheon of the Rushville Kiwanis club, and the patriotic address for the occasion was delivered by Oswald Ryan, an attorney of Anderson.

Mr. Ryan, who was one of the five men appointed by the United States Labor Board to investigate the immigration problems from Europe's standpoint, last year, gave a most eloquent talk along patriotic lines, embodied in the memory of the birthday of the first president. His subject was, "Our heritage from Washington".

Mrs. C. E. Walden sang a solo that was well received and applauded by the members. Among the guests was M. S. Cox of this city.

The Kiwanis club also endorsed the oratorical contest plan which is to be taken up by the Rushville high school on the study of the American constitution, and the good will of the club was pledged to the local undertaking.

## SIMMONS SUED AGAIN IN \$150,000 ACTION

Founder of Woman's Order of Ku  
Klux Klan, Made Defendant in  
Injunction Complaint

FILED BY THE SOCIETY

Atlanta, Ga., Feb. 21—The troubles of William J. Simmons, founder of the Ku Klux Klan were increased today as a result of his "peace" with Dr. Edward Evans, Imperial Wizard of the organization.

The Kamelia, the woman's organization which he founded, recently announced he would be banished as a "traitor", today filed suit in district court for \$150,000 from Simmons.

The suit said Simmons had been paid \$500 for six months for writing rituals and making other preparations for the secret society.

The complaint charged the founder failed to carry out his part of the contract. In addition an injunction to prevent Simmons asking members of the Kamelia to become members of his newly formed secret order, was asked in the suit.

## RUSHVILLE "HI" GETS IN CONTEST

Will Take Part in Nation-wide Ora-  
torical Event to Select Best High  
School Orator

ALL COUNTY SCHOOLS INVITED

Rushville And County School Officials  
Endorse Contest—Rushville a  
Competition Center

The Rushville high school was definitely in the nation-wide high school oratorical contest today, following a visit here Wednesday of a representative of the Indianapolis News, which is sponsoring the contest in Indiana.

It was stated today that an effort would be made to bring Rush county up to a one hundred per cent participation in the contest by interesting every high school.

In co-operation with more than 200 large newspapers of the country, The News is beginning a nation-wide quest for the secondary school pupils who shall write orations that best interpret our American governmental system. The purpose of the national oratorical contest is to increase interest in and respect for the Constitution of the United States.

J. H. Scholl, superintendent of the Rushville public schools, thus endorsed the contest today:

"The nation wide citizenship movement is a movement which will mean much to our country. I hope many pupils will take advantage of this contest for it will repay their effort."

B. D. Farthing, county superintendent of schools, gave his endorsement to the contest as follows:

"The nation-wide oratorical contest which is now in the making, to decide who are the best high school orators in the United States in the interpretation of the Constitution seems to me to be a most worthy and far reaching educational movement. It is a step toward the development of this important phase of education in our public schools—and as such it meets my most hearty approval."

Much of the activity surrounding the contest will center in Rushville as this city has been selected as a competition center and will be known as district 20. County winners from a number of surrounding counties will come here for the district contest. Each high school will hold elimination trials to select its representative and then the county high schools will compete here to name the county representative, who will in turn compete in the district event.

Will

SURVIVORS ALSO TO SHARE

Three Grandchildren Given \$2,500  
Each and Library, Woman's Council  
Are Remembered

Three grand children of the late Albert G. Reeve, Rushville citizen who died this week in Indianapolis, have filed objections to the admitting to probate of the will left by the deceased, in which he made provisions for many benefactors in large sums of money. The will was offered for probate in the Marion county circuit court, where the objections were immediately entered.

Foremost among the beneficiaries of the will, is the Riley Memorial hospital, which by the terms of the will was left \$10,000, and next in the list was the Rushville Knights of Pythias lodge, which was left \$5,000, divided equally between the subordinate lodge and the Uniform rank.

Each of the three grand children, who are the sole survivors of the deceased, was given \$2,500 in the second item of the will.

A dispatch from Indianapolis today stated that he attorneys and officers for the Riley Memorial hospital had launched an immediate attack for the share allotted to the hospital.

The will, which was attempted to be admitted to probate, and which is the last will of the deceased, was written May 15, 1922. Mr. Reeve, who had resided in Indianapolis since last summer, died at his home 2121 Ashland Avenue, Monday morning and was buried here yesterday afternoon.

The first item of the will he directs the payment of all bills. The second item, he directs the payment of \$2,500 each to his three grand children, Georgia Beatrice (Reeve) Carter, Sarah Lois Reeve, and Doris Johanna Reeve, who constitute the persons filing objections to the document.

In item three he devises to Company 35, Ivy, Uniform rank, K. of P. of Rushville, \$2,500 and also the same amount to Ivy lodge 27, K. of P. of Rushville.

Item four is a bequest of his entire library and the sum of \$500 to

## M'ADOO AND COX IN PRESIDENTIAL RACE

Former Files His Statement in Illinois  
Primaries and Cox Speaks From  
Florida

BOTH PROMINENT DEMOCRATS

Springfield, Ill., Feb. 21—William G. McAdoo today formally entered the Illinois presidential preferential contest for democratic presidential nominee in the Illinois primary.

The petition was filed by W. J. Coleman of Chicago. The petition contained 4,997 signatures.

The petitions of Hiram Johnson and Calvin Coolidge as republican candidates for president already are on file. McAdoo is the first democratic candidate to enter the Illinois primary.

Miami, Fla., Feb. 21—Former Governor James M. Cox, of Ohio, Democratic standard bearer in 1920, is again a candidate for the presidency, but how far he will press his fight and what will be his major issues, he is not yet ready to say.

In his 1920 campaign Cox was a strong apostle of the League of Nations and in his speeches during the last two years he has consistently held failure of the United States to enter the league as responsible for many of the current ills, both domestic and international.

## PLANS ATTACK ON HIS CRITICS

William J. Burns, Department of Jus-  
tice Head, to Aid Daugherty In  
A Counter Attack

PROBABLY AGAINST WHEELER

No Developments Expected Today in  
Connection With Rumors That  
Daugherty Would Resign

Washington, Feb. 21—Attorney General Daugherty today called in William J. Burns, head of the department of Justice secret service, to help him prepare a counter attack on his critics.

Burns and Rush Holland, assistant to Daugherty, spent several hours in Daugherty's apartment. It was intimated there might be a statement later replying to the attack on Daugherty by Senator Wheeler, Montana, author of a resolution for an investigation of the Daugherty administration.

At the White House it was stated no developments were expected today in connection with the recommendations of administration senators that President Coolidge asked Daugherty to resign.

Senator Wheeler's resolution will be taken up in the senate today or tomorrow White House officials said.

By A. L. BRADFORD  
(U. P. Staff Correspondent)

Washington, Feb. 21—Attorney General Daugherty today was faced with the alternative of resigning from the cabinet "to relieve President" Coolidge from an embarrassing position, or undergoing senate condemnation in a resolution similar to that adopted in the case of Secretary of the Navy Denby.

Daugherty, perhaps the most plain spoken executive in the administration, has taken the attitude that his record is clean; that he doesn't care what the senate, or in fact, anyone else thinks; that he knows what he's about; that he's ready to fight it out with his accusers, and that he won't resign unless the president asks him to.

But Republican senators are not desirous of having any knockdown, drag out fight with the attorney general, whose ability has long been proved in rough and tumble political jams. Hence, they are exerting pressure both on President Coolidge and Daugherty himself to create a vacancy in the attorney generalship

## Will of A. G. Reeve Discloses Important Bequests Locally

Continued from Page One  
The Rushville public library, item 5 is the bequest of \$500 to the woman's Council of the city of Rushville.

The East Hill cemetery association is given \$500 in item 6, for the purpose of future maintenance of his mausoleum and lot in the cemetery.

His grand daughter, Doris Reeve, a minor of Indianapolis, is given his victrola and all records, in item 7 of the will. The Rush County Historical Society is given the sum of \$500 in item 8 of the document.

Item 9 of the will is the big bequest of \$10,000 to the James Whitcomb Riley memorial hospital for children at Indianapolis.

In item 10 disposal of a life estate in property of his late wife is made, in which it reverts to her family.

The remainder of the estate is directed in item 11 to be held in trust by the executor of the will, to invest as she may deem wise and best, and profits from it to be held for the education of the minor grandchild, Doris Reeve, until she shall marry, or arrive at her full age of 21 years. If the child should die before maturity, or not aspire for advanced education, the will provides that these sums shall be turned over to the Riley Memorial hospital.

In item 12, the last part of the document, the deceased requests the appointment of Miss Anna L. Bohannon of this city as executor of the will, and that she be directed to carry out the provisions provided in the various items.

bers of the local guard company are in jail in connection with the alleged theft of equipment, estimated at \$3,500 by Captain Brann of the company. Captain Brann announced a few days ago that Louis Dagler and Meredith Horrall had made a confession concerning the thefts.

Raymond Finney, the third member to be arrested, also is held in jail on the military charge and is being questioned by the officers.

Just what the report of the state board will have to make, is being anxiously watched by Rushville citizens.

## QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel. Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers. Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative. No gripping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action. If you have a "dark brown mouth"—bad breath—a dull, tired feeling—sick headache—torpid liver—constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime. Thousands take them every night just to keep right. Try them. 15c and 30c.

### ARLINGTON

Born to the wife of James Hiatt  
a baby son, Sunday, Feb. 17. He  
has been named William Robert.

Frank Lawrence and a crowd of  
young folks started to a ball game  
Saturday evening, and south of Ar-  
lington near the covered bridge, the  
machine skidded on the ice, and  
went into the side ditch. Their trip  
was abandoned.

R. Otis Folger of Richmond, who  
has been ill, is improving.

There is no school here this week  
on account of the inclement weather.  
Mrs. J. Ruehker has returned from  
a visit with her son, Charlie Light-  
ner at Homer.

Elihu Price is able to sit up, af-  
ter being seriously ill for the past  
few weeks. Mrs. Price remains a-  
bout the same.

Mrs. Clara Rigsbee attended the  
funeral of her cousin, Mrs. Carrie  
Long Saturday at Shelbyville. Mrs.  
Long has been in the Fletcher's san-  
itarium for about a year. She has  
undergone two surgical operations  
for cancer.

Miss Myrtle McMichel is staying  
in Carthage.

Mrs. Wallace Brown visited at the  
home of Charlie Kennedy Wednes-  
day.

Mrs. Minnie Piper spent Sunday  
evening at the home of Mr. and Mrs.  
Pressnall.

There was no services at the  
Christian church Sunday night ow-  
ing to the condition of the weather.

### PLANS ATTACK ON HIS CRITICS

Continued from Page One  
without further furor. Late yester-  
day Senators Lodge and Pepper cal-  
led on Mr. Coolidge to this end and  
today other Republican senators are  
getting into the play, mostly with  
Daugherty.

Since Mr. Coolidge, up to now has  
let it be known he would not ask  
for Daugherty's resignation unless  
specific evidence finding Daugherty  
culpable in the oil or other scandals  
were produced, the line of argument  
directed at Daugherty is that he  
should resign to spare the party un-  
necessary additional trouble.

### CORA B. MULL DIES TODAY

Indianapolis Woman, Related Here,  
Dies of Heart Trouble

Word was received here this morn-  
ing of the death of Mrs. Cora B. Mull,  
which occurred this morning at the  
Methodist hospital in Indianapolis,  
following a long illness of heart trou-  
ble. The deceased was thirty nine  
years of age and is related in this  
city.

She has many relatives by mar-  
riage living in this city, Milroy and  
Homer. Mr. and Mrs. Omer Mull of  
Homer, were her parents-in-law, Dr.  
A. A. Mull of this city was a brother-  
in-law and besides these people, she  
is survived by her parents and a brother  
in Noblesville.

No word has been received here as  
to the time of the funeral, but in all  
probability it will be held at the home  
of Mr. and Mrs. Omer Mull in Homer.

### KILLED BY TRAIN TODAY

Man Related Here Meets Death This  
Morning at Anderson

Word was received here this morn-  
ing of the death of Ben Hartzell of  
near Anderson, who was killed by a  
train on his way to work at the  
Remy plant in that city. Details con-  
cerning the affair were not learned,  
excepting that the machine in which  
he was riding to work was struck by  
the train.

The victim is well known here,  
and is related throughout the coun-  
ty, having married Miss Edith Hun-  
gerford of southwest of here. He  
also was a brother-in-law of Mrs.  
Dale Jackson of this city, who re-  
ceived the word this morning. Fun-  
eral arrangements were not learned.

### HOLIDAY CLOSING HOURS

The postoffice and banks will be  
closed all day tomorrow, which is a  
legal holiday in commemorating the  
birthday anniversary of George  
Washington. The usual holiday hours  
will be observed at the postoffice,  
with no city or rural deliveries, and  
windows will close at ten o'clock.  
Only special delivery and perishable  
mail matter will be delivered during  
the day.

### STATE CANDIDATE OUT

### TOWN HAS BIRTHDAY

Rockville, Ind., Feb. 21—Rockville  
is one hundred years old today. A  
celebration was held in the high  
school building in commemoration of  
the centennial of the establishment  
of the city. One of the features of  
the program was a letter from James  
H. Baker, 94 years old, giving some  
of the incidents in the early history  
of the city.

### Woman's Greatest Asset

Health is woman's greatest asset.  
Upon it depends charm, beauty,  
power to attract others, happiness  
and success, and it is what really makes  
life worth living. Thousands of wo-  
men suffer from headaches, backache,  
nervousness, mental depression and  
mysterious pains, who could find im-  
mediate relief by taking Lydia E.  
Pinkham's Vegetable Compound  
which is made from roots and herbs.  
For nearly half a century this medi-  
cine has been recognized as the stan-  
dard remedy for woman's ills.

THURSDAY, FEBRUARY 21, 1924

Fear the Lord, and serve Him in  
truth with all your heart; for con-  
sider how great things He hath done  
for you.—1 Samuel 12: 24.**Farmers, Worst Sufferers**Not so long ago a man living out-  
side of Rush County went to an In-  
dianapolis bank and made arrange-  
ments to borrow some money which  
he expected to apply to some he al-  
ready had and buy a farm in Rush  
county.His preparations complete, he  
came here to make the purchase. A  
few days later he notified the bank  
that he would not need the loan as he  
did not buy the farm.Inquiry developed that the man did  
not want to own land in a place  
where everyone seemed to be "knock-  
ing" real estate, that there was no  
future to an investment in land in  
such a community.This condition will have to be eli-  
minated or Rush county land values  
are not going to come back as they  
should. Rush county farmers, and  
all other Rush county citizens, will  
have to get it through their heads  
that Rush county soil is the BEST  
soil on earth and therefore it is worth  
as much as any other land.A Rushville citizen was comment-  
ing on an editorial in the Daily Republi-  
can, urging the boosting of Rush  
county land, and a farmer standing  
nearby said that he did not agree  
because he could not be "two-faced".In other words, this farmer, in  
common with far too many others,  
believes that Rush county land is  
worth no more than that for which it  
has been selling.The truth of the matter is that  
Rush county land is just as good as  
it was when it was selling for \$250  
and \$300 an acre. The soil is just as  
fertile and the buildings to be found  
on Rush county farmers are just as  
modern and well kept.The only thing that has caused  
land values to decrease in Rush  
county is the attitude that farmers  
take, like the one noted above.Farmers, themselves, are the worst  
sufferers from the deflation. They ofall others should be the most ready  
and willing to keep land values up.  
Constant reiteration that land is  
worth no more than it is selling for  
will only drive prices lower.  
Every loyal resident of Rush coun-  
ty should begin this day to talk  
about the high quality of Rush coun-  
ty land. There is none better. This is  
the fact that we should all keep  
foremost in our minds and that we  
should always impress on the stran-  
ger.**A Symbol of Democracy**Press dispatches from Berlin re-  
porting progress being made by the  
committee appointed by the Allied  
Reparations Commission to investi-  
gate German finances, report an ul-  
tra-official dinner given by Amba-  
sador Houghton at which all the im-  
portant diplomats and officials gath-  
ered to meet the American commis-  
sioners—General Dawes, O. D. Young  
and Henry Robinson.As a symbol of the democracy  
which this country stands for and  
the business-like procedure which it  
expects in settling the reparations  
controversy, General Dawes calmly  
lit up his old briar pipe just after the  
"fish course". In other words, pomp  
and ceremony mean nothing to  
Dawes. Neither are they part of this  
nation's calculation.We want action looking toward  
real world peace, and Dawes and the  
American members on his committee  
mean to get action or know the reason  
why. Red-tape diplomacy, delays  
and evasions have been carried on  
for five years. Dawes, smoking his  
briar pipe at the end of the fish  
course, is typical of his abhorrence  
of useless delay such as has sur-  
rounded past negotiations.Enemies of plans for settlement of  
reparations question can take their  
cue from Dawes and his pipe—his  
committee means business and there  
is no use trying to fool them.**FIFTEEN YEARS

The Daily Republican:

Your interesting editorial recent-  
ly published regarding land values  
in Rush County, also copied in The  
Indianapolis Star, taking the attitude  
of boosting, should have been given  
a box on the front page.The attitude is worth making  
state wide as in California and Flor-  
ida.You have not mentioned that as a  
county we not only rank first in the  
number of hogs but first in quality.  
We also rank first in the production  
of corn; having recently passed  
Johnson and Benton Counties.These two facts would place Rush  
county second to none as an agri-  
cultural county. We also have the  
best churches, the best schools, the  
best farmers, the best merchants, the  
best roads, the best and cheapest  
telephone system in the state, the  
best court house, the best mail ser-  
vice, the best newspaper, the best  
Farm Bureau and the best drinking  
water, not to mention the largest un-  
incorporated town in the state, the  
world's fastest one-mile runner of  
high school age, the cleanest and the  
fastest basket ball team, the largest  
fires and fire sales, and our county  
is also in the gas belt.As a state Indiana has wonderful  
advantages over those weaker sisters  
California and Florida, which you re-  
fer to. We have the center of popula-  
tion, making it geographically locat-  
ed the best of any state in the Union  
for reaching every market. That  
means that we are closer to more  
people to feed than any other state.  
We have 2,000 miles of transporta-  
tion to our advantage over Califor-  
nia in reaching the eastern markets  
where California markets it's beans,  
nuts, eggs and fruits that we can  
produce and do produce equally as  
well and even better than they can.  
Their produce is two weeks old when  
it reaches Indiana on its way East.Our soil is richer and our rainfall  
greater than in California or Florida.  
They cannot raise the corn, wheat,  
hogs and cattle like we do. The cli-  
mate does not agree with them. We  
have a better climate than they and  
it is not so monotonous. We have  
freezing weather that kills weeds,  
insects and pests as we sit by the  
fire and read, while they have to hoe,  
poison, spray and trap the year  
around to free their crops from these  
things which nature helps us to con-  
trol.We ought not to look to any state  
for land values; we ought to and we  
will show them what real land values  
are. Our products are more vital and  
more important than their's and the  
consumers could live on apples, on-  
ions, bread, beef, pork, and canned  
goods if an earthquake should shake  
all of the lemons, nuts and oranges  
off of the trees in California before  
they commenced to get ripe, or a ti-  
dal wave should carry all of Flori-  
da's melons into the Gulf of Mexico.Indiana is more important than  
either or both California or Florida.  
We raise the best livestock, the best  
dairy products, the most onions, the  
most canning crops, such as sugar  
corn, beans, cabbage, tomatoes and  
peas. We grow the reddest and  
sweetest strawberries, the best flav-  
ored peppermint, the smoothest, larg-  
est and whitest potatoes, the best  
flavored melons, the most pop corn,  
the sweetest maple syrup, the best**The Hodge - Podge**

has the key and can't get in. In some  
respects he's like the man who remain-  
ed at lodge too late and whose wife  
waited for him.Little wonder that the price of gaso-  
line advances every few weeks, with  
the crude oil companies paying attor-  
neys \$100,000 retainer fees.You can't back up the home com-  
munity and be crossways on every  
question for its welfare.Rouge is said to be out of date in  
Paris—but Paris is not Rushville.Marriage licenses are not selling any  
faster than they did in 1923. Women  
have equal rights, but they do not seem  
to be asserting themselves.Everyone has a reputation—but not  
all of them are worth keeping.Not all lame ducks are quacks, but  
many of them belong in that class.The fact that the other fellow is a  
man after your own heart may or may  
not be a recommendation.feeding corn, the best cracker flour  
is made from our wheat. Our peaches  
are second to none in color and flav-  
or. Our apple orchards grow more  
and better flavored fruit than any  
other state. We raise the tallest to-  
bacco of the finest quality with the  
broadest leaves of any state, and be-  
sides these we raise pickles, celery,  
etc., in car load quantities.Then California boasts of their  
men: We have men that are equally  
as intelligent. Hoosiers are noted all  
over the Union for being courteous,  
cautious, and shrewd. Our politicians  
are the most portly, and get their  
names in print or keep them out at  
will more than any other politicians.  
We have one of the largest livestock  
markets and the largest truck market  
in the world. The most dangerous lo-  
comotives that run faster, hit more  
automobiles, throw them farther and  
kill more people than any other loco-  
motives. We have more traction lines  
(2,000 miles in the state) that start  
quicker, pass more red blocks, run  
faster and stop quicker with more  
casualties than any other traction  
lines.Our women are prettier than those  
so-called California and Florida  
bathing beauties and they shoot  
straighter, wear lower necks, short-  
er skirts, and kick up more fuss than  
any other women. There is only one  
thing that California has on Indiana  
and that has helped turn the tick for  
them. That is their system of coop-  
erating marketing on the commodity  
basis of which they boast as much of  
as their sunshine and flowers. We  
farmers of Indiana are now learning  
that. We are learning that by boost-  
ing our neighbor we are boosting our-  
selves. They passed through the same  
period we are passing through now  
several years ago.A knocker never wins and a win-  
ner never knocks. Let's all be win-  
ners and put land values in Rush  
county and Indiana up where they  
belong.

## NEWSY GOSSIP IN THE WORLD OF SPORT

KING OF BEASTS  
ARE READY TO GOHITTIN' 'EM  
AND  
MISSIN' 'EM

Closer and closer draws the hour when the second "Battle of the Century" will take place. Nearer and nearer the time draws to Crush Connersville.

## CRUSH CONNERSVILLE

Every Lion should watch his man and let's keep the Ikimiks from getting started. Watch your fouls, and play Connersville Friday night, like you did Richmond last week, only don't let 'em start a last minute rally.

## CRUSH CONNERSVILLE

Show the Ikimiks that Lightning won't strike twice in the same place.

## CRUSH CONNERSVILLE

The postoffice gang takes a holiday too Friday, so that they can get in line early Friday night. Even the rural route carriers are not going out in the morning. Pretty soft for the bankers and postal employees that the big game comes on a lucky Friday.

## CRUSH CONNERSVILLE

Easiest line to write this week is the words crush Connersville, and they started in Monday in small type increasing in size each day showing that we're emphatic about the idea. And here it goes again.

## CRUSH CONNERSVILLE

The basketball World's mythical Big Ten, turns out to a Big Dozen this week, with several funny ideas in the list. Muncie is rated ahead of Shelbyville, Bedford away in front of Richmond, and Muncie tied with Anderson for first place. Moscow gets honorable mention, along with Letts. We'd hate to have that guy keep tab on our bank book. There are two teams not mentioned in the honorable list, which should have recognition—Hamburg and Peppertown. Milroy, Carthage, Raleigh, Webb and Rushville don't seem to be downhearted because their names are not mentioned, because they know that they have the stuff that could beat half of those teams in the list—in

NEW GERMAN DISCOVERY  
PROMISES RELIEF FROM  
RHEUMATIC PAINS

From Leipzig, Germany, comes a report of the discovery of a new method for the relief of pain in cases of rheumatism, gout, neuritis and neuralgia without the use of internal medicines. The discoverer, Jacob Buhler, of Stuttgart, Germany, has undoubtedly proved that in even the most advanced and stubborn cases the sufferers often secure relief the very first day.

Buhler proceeded on the theory that rheumatism is often caused by internal abscesses (such as a blind pus pocket in a tooth), giving off poisons which are absorbed by the blood and carried to the joints and muscles where they set up inflammation and intense pain. When the inflammation appears in the muscles or joints, it takes the form of rheumatism, but where the delicate nerve sheath becomes inflamed it causes neuritis or neuralgia. To neutralize these poisons Buhler compounded a new form of oil intended to penetrate to the affected joints and muscles and neutralize the poisons in much the same way that bicarbonate of soda or magnesium neutralizes an acid stomach. As a result the aching joints are soothed, the annoying pains and inflammation, stiffness and swelling are relieved in many instances with even the first few applications.

Note: The oil referred to above is known in this country as Buhler Oil. At the present time, the following druggists report that they have secured a limited quantity of Buhler Oil for distribution in this city. So remarkable have been the results from the use of Buhler Oil that these druggists are giving their customers a written guarantee to refund the price in full to all purchasers of Buhler Oil who fail to get immediate relief. Newcastle defeated Greencastle, in the battle of castles some weeks ago, and this battle will be played over again Friday night, down at Greencastle. The Trojans have polished up their wooden horse, and are due for a smashing victory.

Columbus ends their season with two games away from home, playing at Frankfort and Logansport. Both are hard games but in these days of upsets, the Bull Dogs wouldn't surprise us much by knocking the props out from under these teams.

## CRUSH CONNERSVILLE

Dear Hitin' 'em—We're writing again after staying out of your column for so long. We hated to 'but in' on those True Moscow fans. Here is the way the team feels about it; they know that it has taken five players to win every game that they have won this year. No two players nor three could have done it.

Gosnell, Hugnerford, Tillison, Reber and McAhren will play their last game in high school against Manilla Friday night at Blue Ridge. Yours,

Hash and Hash, Po.

## WE'RE GOINN' TO WATCH 'EM

The Basketball World says: Little Brownsburg, one of the most dangerous of the dark horse candidates, stopped Shortridge, 32 to 28. Watch Brownsburg, they may upset you somewhere.

The game between Connersville and Newcastle last Saturday night must have been a rough and tumble affair, judging from the 29 foul goals that Connersville made. The following in the Connersville News-Examiner speaks of the points:

Dear Side Lights:  
It may be interesting to you to know that against Newcastle the Spartans made 29 out of 36 attempts at the foul line 806 per cent. The field goal percentage against the Trojans was 218. The foul goal percentage was 800. Here's the total points for the season to date: C. H. S. 644; Opponents, 508.

## ROARIN' LIONS, RARIN' TO GO

Hilligoss, McNamara, Snoddy, Walker, Comella, Newbold and the rest of the King of Beasts are seen above making a running start toward the Ikimiks. By the look in their eyes, you can tell that they fully intend to crush Connersville here Friday night. The above picture is the best that we have of the Rushville team. Before having a "rgular" picture taken, perhaps they are waiting to win the state title. The real truth about not having a picture is that the new basketball suits have not arrived, and they will probably be here in time for the team next year.

## GIRL'S TOURNEY IS DELAYED

Event For Saturday Will Be Held  
At A Later Date

The Girl's basketball tourney for Saturday was called off today, and will be held at a later date, probably March 8 or 15.

The icy condition of the roads and the sickness among many school children caused the action to be taken today to delay the tourney until sometime next month. On account of the roads being in such a bad condition, the attendance would be reduced. A. L. Trester, secretary of the state association, was called and consented to permit the girls to play their tourney even after the sectional tourneys, which is contrary to the rules for the boys teams. The date was not definitely decided and will be either the second or third Saturday in March.

## CRUSH CONNERSVILLE

Don't Connersville know that Shelbyville and Rushville have made all arrangements for a special train over the Pennsylvania railroad for the Richmond regionals.

## CRUSH CONNERSVILLE

YOU SURE IS A TRUTHFUL LAD, MARKIN' 'EM UP  
Hitin' 'em of Rushville has adopted a slogan now, having got into the line of sloganeers. His newest slogan is "Crush Connersville." Here's hoping you have better luck trying to crush them than we did trying to croak them last Saturday night. Rushville is practicing hard for their battle of the century Friday night and the Lions would rather win from C'-ville than any team in the state, barring none not even Passiac.

—Newcastle Courier

## CRUSH CONNERSVILLE

TEN POINTS AIN'T NOTHIN' TO WHAT IT WILL BE

Rushville likes slogans, and takes great stock in them. They whipped us with one, and they are trying it on Connersville by interlining Hitin' 'em's sport column with unescapable demands to "Crush Connersville." We are not certain about the fighting qualities of an Ikimik, as the dictionary is vague on that point, but we do know the Lions can claw like fury. We give Rushville 10 points.

—Hardwood Hamper, Columbus

## CRUSH CONNERSVILLE

Before Crushing Connersville tomorrow night, Rushville fans must avoid being crushed by getting in line early at the door. They swing open at six bells. After that we are goin' to crush Connersville.

## Mays Should Win For Reds

HENRY L. FARRELL  
(United Press Sports Editor)

New York, Feb. 21—Change of scenery usually works to benefit of an athlete who has fallen into a rut. It invariably improves an athlete who wants the scenery changed.

For these reasons it was agreed among baseball men here that the transfer from the New York Yankees to the Cincinnati Reds would help Carl Mays, the only submarine pitcher in captivity.

Mays has all the natural qualifications of a great pitcher. He is young, as baseball players are rated, he is game and he is the most willing toiler in baseball.

He didn't get along with the New York Yankees because he didn't like his surrounding and he couldn't get along with the manager of the club.

Figuring that he would be happier in Cincinnati, that he can get along with the genial Pat Moran and that his underhand delivery ought to go good against National League batters who have never looked at it, the wise baseball men figured that he ought to be one of the best pitchers on the fine staff which the Reds have gathered.

For some reason, John McGraw expresses the opinion that Mays will be a bust for Moran. Perhaps McGraw rates him on the temperament that he showed with the Yankees and figured that he would be with the Reds just what he was with the Yankees—a crabby hermit, sulky

and hard to get along with.

If Mays wants to pitch in Cincinnati, if he gets a chance to do a lot of work and gets away good, he ought to win a lot of games, because he can pitch.

Gathering from what he said in an interview with Tommy Laird, the able sport editor of the San Francisco News, Mays not only wants to pitch for Pat Moran but he is 'crazy' to get started.

Mays told Laird it was the most pleasant surprise of his life when he heard that he had been released from the Yanks to the Reds.

"I have been trying for two years to get away from Huggins," he said, "and I had just about given up hope. I broke into the majors under Bill Carrigan, and Pat Moran is just like him. I naturally desired to play with the Reds, and you can imagine how pleased I was over the transfer."

Mays said that Huggins didn't deserve much credit because he plays favorites too much and he blamed the Yankee manager for making a bust out of Frank O'Doul, because he wouldn't give him a chance.

The former Yankee pitcher said the Reds had given him the best contract he ever had, and that he was going to work his head off to make good for Pat Moran.

Indiana's business picture is one of depression—events such as the Teapot Dome scandal, the Hollings crash and other incidents of some magnitude, the public may lose sight of the fact that stars that stand out in the firmament of the industrial and financial world. These encouraging incidents are obscured by the smoke screen created by the unpleasant experiences, but enumerated individually they stand out in relief:

The Vision of  
George Washington

When the Father of His Country fought for its freedom, it may be that, with the prophetic faculty of great men, he saw at times a vision of the "wonders that would be" in the vast, new nation. He must have dreamed for us that we would live up to his own high standards of courage, freedom and honor. His birthday is a fitting time for our silent resolve to cherish those ideals and do our best to live up to them.

## NAMED AFTER WAR PRESIDENT

Junior High School at Columbus Is Called Wilson School

Columbus, Ind., Feb. 21—In honor of America's great War President, the new junior high school building was given the name, the Wilson school, by the city school board at its meeting yesterday afternoon.

A bronze tablet, bearing the new name of the building, probably will be placed in the entrance lobby.

The Wilson building, which was opened for school purposes September 16, 1923, now has an enrollment of nearly 300 pupils. It is the newest and most modern building in the city used for class purposes.

stagnant economic condition, with neither a depression nor a period of extreme prosperity.

2—Employment managers of a number of Indianapolis factories report that only 4,800 persons desiring work in the state capital are idle. They say that practically all the unemployment will be eliminated by spring, when building construction is resumed on a large scale.

3—Insurance men are preparing to expand their business through intensive sales efforts.

4—Bankers expect commercial loans to grow less, showing that industry is tightening its strings for strong competition and that business is generally being put on a more sound basis.

The steel market is booming now. All these facts combined overshadow the most severe pessimism. They show that the calamity howlers are howling in vain and that 1924 will end on the blue instead of the red side of the ledger.

Of course, the Teapot Dome scandal and the Hollings failure and other similar occurrences have depressed the commercial world to some extent, but the depression has not put a damper on business. The securities markets, were affected temporarily in the Hollings case and the confidence of the public in its government was shaken by the national and state government fiascos, but underneath it all there is a fundamental belief that everything will turn out all right. Such occurrences will only tend to make the public watch its investments more carefully and keep in closer touch with the government that serves them and elect more substantial men of public office.

### It Sure Does.

"Money talks," said Uncle Eben, "even in church. Two bits in de contribution plate kin speak f'm de heart, same as a prayer."

### The Go-Getter.

Another pathetic little feature of everyday life is the go-getter after he has got it and does not know what to do with it.

### Roots and Shoots.

Love of money is the root of all evil, and the fierce pursuit of it makes the root send out shoots and flourish like a green bay tree.

### Impossible.

They say Americans don't make good waiters. They simply can't look humble in the presence of a clerk playing a duke on Saturday night.—Duluth Herald.

MOVIES

**Three Days at Cattle**  
All the world recently watched the experiment of Dr. Thomas Webster Edgar, famous New York physician, in transferring a monkey gland to Irving R. Bacon, writer, who felt his vitality ebbing and longed for a new lease on life.

The operation caused comment everywhere. Now a motion picture is being made around a similar idea. What would happen if a man were fitted out with monkey glands? That is the question which is asked and answered speculatively in a feature film made at the Golywyn Studios with Lon Chaney playing the two leading roles—the physician who performs the experiment and the monstrosity which results from the operation. This melodramatic film, "A Blind Bargain," founded upon Barry Pain's novel, "The Octave of

Freckles and His Friends

Willie Can't Be Caught

By Blosser

Claudius," will be the attraction at the Castle theatre for 3 days, beginning today.

Many medical authorities were consulted in the preparation of the scenario. Dr. Henry Conway, a Los Angeles physician, was engaged as technical adviser and was on the set constantly. In speaking of the theory propounded by the film, a prominent physician said:

"The glands of man differ both chemically and in molecular structure from those of the other species of mammalia. Therefore, I do not

believe that the two could be mixed. In the picture, "A Blind Bargain," a distinguished but half-mad physician has made a partial transfusion of monkey glands into a man, who then takes on the facial expression of an ape. Chaney, master of make-up, gives the role an interpretation which is causing much comment among the medical fraternity. Wallace Worsley directed it. Associated with Lon Chaney in the cast are Jacqueline Logan, ex "Follies" beauty; Raymond McKee, Fontaine LeRue, Virginia True Broadman, Aggie Herring and Virginia Madison.

**"The Eternal Flame"**  
One of the tremendously dramatic scenes in Norma Talmadge's fascinating starring vehicle, "The Eternal Flame" which is the first National attraction at the Princess Theatre today is that which depicts General de Montreveau preparing to brand the great court beauty whom he believes has ridiculed his love.

The Duchess of Langenis, wonderfully enacted by Norma Talmadge, offers her beauty gladly, wildly, in an abandonment of love, when he pronounces his judgment of terrible revenge on her, and waits unflinchingly for him to brand her forehead with the mark of infamy.

The scene takes place in a room of forbidding austerity. Through the curtains of a doorway the flare of fire and the movement of ominous figures of the men who are preparing the iron can be seen. De Montreveau enters and denounces the Duchess. A masked man hands him the branding iron. The Duchess bares her forehead to the receive the terrible stigma. Then the General finds he cannot mar her glorious beauty.

She is freed, broken hearted. But a love such as their cannot forever be spoiled by misunderstanding, and in a most fascinating chain of events the threatened tragedy of hearts is transformed into a gloriously happy romance.

## Rheumatism That Stays on Tho Teeth and Tonsils are Gone

Chiropractic Health Talk — No. 53.  
By H. V. McCully, D. C., Ph. C.

So-called Rheumatism is a painful condition of some or all of the muscles of the body, and is the result of the irritation of poisons and toxins upon them. The retention in the body of these poisons may also cause pus pockets at the root of the teeth, diseased tonsils, etc.

When any of these conditions are present it is a certainty that the organs of elimination are not receiving their full supply of life force, due to the nerves supplying them being pressed on at the point where they leave the spine.

We drive straight at the cause by relieving the pressure on the nerves and the poisons are eliminated.

There is no substitute for our Chiropractic Spinal Adjustments in these conditions.

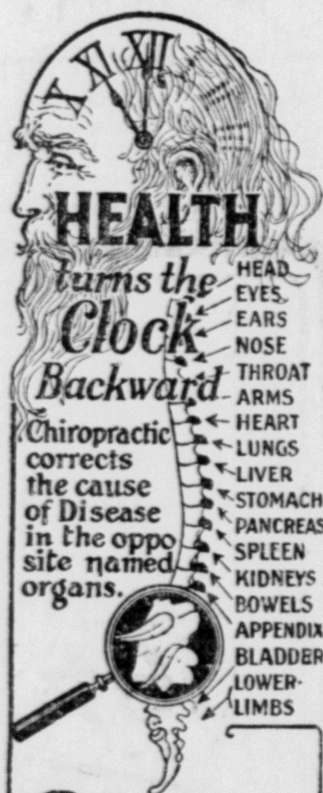

### Operations Failed But Chiropractic Succeeded

"I was confined to my bed with what the doctors said was sciatica rheumatism due to the bad condition of my teeth and tonsils. I had all my teeth pulled. Then I went to Hot Springs, Ark. The physician there said my tonsils were responsible and removed them. After this I took a thorough course of baths. I returned home in May still suffering and growing worse. Again I was in bed. Chiropractic was advised and I tried it. After six adjustments there was some improvement. I continued and was able to get about with a cane. Now I am well, and I have been able to return to my work as a railroad conductor. I am fifty-eight and I have been so much benefited that I want everyone to know."—C. R. Blackley, Chiropractic Research Bureau, Statement No. 1385H.

# A Business Story

Rich in meaning to every motor car buyer

How Studebaker reached the heights

THE story of Studebaker has been told by many men in many ways. Now let us tell it to you.

Studebaker growth has in late years been Motordom's sensation. Sales have mounted until last year 145,167 buyers of quality cars selected Studebakers. They paid \$201,000,000 for them.

All must realize that a new situation has arisen in high-grade cars. You who are interested should now analyze the reasons.

### 72-year traditions

The Studebaker principles have become traditions in their 72 years of existence. They have never wavered. In all changing conditions they have brought new luster to that name.

Men come and go, but a name like this becomes a heritage to foster and enhance. That's what we've done — we who have that name in keeping for a time.

\* \* \*

Studebaker has always been a leader. For two generations it led in horse-drawn vehicles, now products of the past.

Most of you remember Studebaker carriages — queens of their time. They were used by multitudes of people who loved quality and style.

When motor cars succeeded them, Studebaker became the logical leader in that field. Any other place would have been an anomaly.

### The only way to the top

A concern of this age has one fact ingrafted in its fiber. The only way to leadership is through super-sevice.

The leader must excel in all you seek — in quality, in beauty and in value. There is no other way to the top. Every stretch of the road is strewn with wrecks of those who tried another.

What others say — not what you say — determines your place in the long run. In every field of endeavor one must accept that fact.

We had the money, the plants, the prestige. We had the incentive of Studebaker traditions. In time we secured the men.

We told those men to build for us the utmost in fine motor cars, regardless of all costs. We pledged them our good faith and our resources.

### The cost was \$50,000,000

We built new factories — modern plants. We fitted them with new equipment — 12,500 up-to-date ma-

15% to conform to those standards exactly.

We invested \$8,000,000 in a drop forge plant to make all our own drop forgings. \$10,000,000 in body plants, to build all bodies to our standards.

We employed 1,200 skilled inspectors to see that all standards were fulfilled. There are 30,000 inspections on Studebaker cars during manufacture, before they go out from the factory.

### That's the whole story

That's about the whole story. We simply followed the never-changing Studebaker principles. We gave to our buyers the utmost — values they could not match. Then they turned by tens of thousands to Studebaker cars.

Over 750,000 of those cars have gone out. Their performance has developed a demand for 150,000 per year.

Every increase in sales brought a lowered cost, which we promptly gave our buyers. Today these fine cars are offering values which no rival can approach. They have made us the world's largest builders of quality cars.

### We deserve a hearing

Now we deserve a hearing. All who consider a car at \$1,000 or over should learn what Studebaker offers. That in fairness to yourself and us. Check one by one the advantages we offer. You'll find them by the score.

Remember that 145,167 who did that last year chose a Studebaker car. There are nine chances in ten that you'll do it.

Consider our record, our accomplishments, our policies and principles. Consider that we have \$90,000,000 at stake on satisfying men like you. Don't buy a car in this high-grade class without seeing what we give.

19 WITNESSES GIVE TESTIMONY

Court of Inquiry Required all Night  
in Going Into Facts of "Condi-  
tions as They Exist"

A general shake up of conditions  
as they exist in the Rushville armory,  
is expected to result within the next  
day or so, following a meeting of the  
military board of Indiana, held here  
this week by order of Governor War-  
ren T. McCray and Harry B. Smith,  
adjutant general of the Indiana Na-  
tional Guard.

The state board was convened up-  
on the official call last Saturday in  
Indianapolis and was sent here Mon-  
day night of this week to hold a  
military council and investigation; it  
was disclosed today in an interview  
with the secret service investigator  
who has been working on the local  
situation for several days.

The military board, who conducted  
the court of inquiry here, consisted  
of Captain Clarence Wysong, Cap-  
tain E. L. Shilling, M. H. C., and  
Major A. H. Whitcomb. The purpose  
of the meeting here on the orders of  
Governor McCray set out the fact  
that the "thefts at the Rushville ar-

according to the special investiga-  
tor the inquiry took the greater por-  
tion of the night, and the board left  
here on the five o'clock traction car  
for Indianapolis in the morning, fol-  
lowing the all night conference.

In all, nineteen witnesses were ex-  
amined, and their written testimony  
obtained. The board was expected to  
make a report on their findings today  
or Friday.

The witnesses not only included  
guardsmen, but also persons "out-  
side" of the guard company, and  
several witnesses were brought here  
from distant cities, and their testi-  
mony obtained.

Further investigation is under way  
by the authorities.

It will be recalled that three mem-  
bers of the board were expected to  
be here today.

## COUNTY ASSESSORS IN CONFERENCE HERE

Meeting Wednesday Devoted Mainly  
to Discussion of Personal Prop-  
erty Valuations

WEATHER KEEPS MANY AWAY

Eight county assessors from this  
section of the state met here Wed-  
nesday with Walter Bridges of  
Greenfield, representative of the  
state board of tax commissioners,  
and discussed valuations of personal  
property and other matters in re-  
lation to the spring assessment which  
will begin March 1.

The values which will be placed  
on farm property were the principal  
topics for discussion and the county  
assessors will base their recommen-  
dations to their township assessors  
regarding valuation largely on what  
was developed in the conference here.

Assessors present were: Hancock  
county, Marshall Bussell of Green-  
field; Henry, Milt H. Kern of New-  
castle; Fayette, Scott Thomas of  
Connersville; Johnson, Frank Etter  
of Franklin; Union, Charles H. Little  
of Liberty; Madison, J. M. Kaufman  
of Anderson; Decatur Adolphus Bay-  
less, Greensburg, and Earl Priest of  
Rush county.

Assessors were expected from  
Wayne, Randolph, Delaware, Ripley,  
Dearborn, Franklin and Bartholomew  
counties, but the condition of the  
weather kept them away.

## RADIO GREETING EXTENDED

Many Rushville People Hear Concert  
By Former Musician

A number of people in this city,  
who have radios, heard Mrs. T. L.  
Jones sing last night, on a program  
broadcasted from station KFKB Mil-  
ford, Kansas, at the Brinkley-Jones  
hospital association, about two hun-  
dred and fifty miles south west of  
Kansas City, Mo.

Mrs. Jones, was formerly Miss  
Mary Louise Poe of this city, her  
parents, Mr. and Mrs. Jesse Poe,  
being among those who were able to  
listen in on that broadcasting sta-  
tion. Mrs. Jones, at the conclusion  
of her number, broadcasted a greet-  
ing to her parents in this city.

## WEATHER IS STILL HOLDING REIGNS

Schools and Many Other Scheduled  
Affairs Give Away to the Ice and  
Cold Elements

FRIDAY MAY BE WARMER

Coldest Last Night Was 14 Above  
And Weatherman Promises In-  
crease for Tomorrow

Weather conditions today did not  
aid much in travelling over the coun-  
try roads, and only a few of the  
township schools opened this morn-  
ing, with the greater portion of them  
being in a recess on account of the  
weather.

The weather has caused a post-  
ponement of many things this week,  
and a Jubilee at the Glenwood school  
for tomorrow night was carried over  
until next week, and a meeting of  
the high school principals for today  
was also postponed until a later  
date, as the school officials could not  
all reach the Milroy school, where  
the session was to have been held.

Even the weather caused a post-  
ponement of the girl's basketball tour-  
nament, scheduled for Saturday in  
this city, as the school officials were  
afraid that the icy roads would pre-  
vent a good crowd.

In all of the icy weather, the rural  
route carriers at the Rushville  
postoffice have established a record  
of not missing a single patron this  
week although in many places peo-  
ple on their routes urged them not  
to attempt the deliveries.

Telephone communications that  
were damaged by the sleet and ice  
were being repaired today in all  
parts of the county, as several of  
the lines were out of order this week  
on account of the storm.

The weather indications for to-  
night are continued cold, with the  
mercury near 15 degrees, and warmer  
weather is predicted for Friday.

The mercury last night went to 14  
degrees above zero, according to El-  
wood Kirkwood of Manzy, in charge  
of the government thermometer.

In addition to the trouble of the  
Rushville telephone company in hav-  
ing lines broken and poles down, the  
exchange at Mays, owned by the  
Spiceland company, was out of com-  
mission on account of the ice and  
cold.

The main cable leading into the of-  
fice was pulled out of the building,  
and many of the wires were down,  
which will probably keep Mays iso-  
lated for a few days.

## ANOTHER HAT IN THE RING

William Morgan Comes Out For G.  
O. P. Nomination for Sheriff

Another hat went into the cluttered  
up political ring in Rush county to-  
day when William Morgan, farmer  
living east of Rushville, announced  
that he would be a candidate for the  
Republican nomination for sheriff in  
the primary election May 5.

Mr. Morgan was a candidate for  
the nomination at the primary two  
years ago and was defeated by S. L.  
Hunt, the incumbent, who is now  
serving his second two-year term.

Five other republicans have  
announced their candidacies for nomi-  
nation this week.

## THE GOURMAND

## LATIN CONTEST STARTED TODAY

Students in Rushville Schools Begin  
Process of 'Picking Winners' in  
Three Divisions

COUNTY TEST ON MARCH 22

County Winners Will Then Indulge  
in Contest With District And  
State Pupils

Latin students in the Rushville high  
school today were participating in  
the preliminary contest, which will  
terminate in district and a state  
contest, naming a winner for the  
state in achieving the highest aver-  
age for a school.

The contest is divided in three di-  
visions, with the Freshmen being  
listed in the first division, the Sop-  
homores in the second division, and  
the more advanced students being  
classed in the third division.

The Latin contest in the Rushville  
schools was in charge of Miss Helen  
Jaehne, local instructor. In the con-  
test today were 14 in class one, and  
9 each in the other two classes.

When the grades are given, each  
of these divisions will have winners  
to represent the Rushville city  
schools in the next step for elimina-  
tion. Three winners of each divi-  
sion will be chosen from the best  
grades attained today, and these  
winners will then take part in the  
county contest, to be held here March  
22.

All of the high schools of the  
county will send their school repre-  
sentative here on that date for the  
contest and the three winners in the  
classes will then be named to rep-  
resent the county in the district con-  
test.

The district contest will be for all  
high schools in the Sixth district,  
composed of the eight counties  
Wayne, Union, Fayette, Franklin,  
Henry, Hancock, Shelby and Rush.

The District contest will probably  
be held in Rushville this year, and  
was held in Richmond last year.  
The date for the district contest will  
be April 5. The winners of the 13  
districts in the state will then fight  
it out for the state honors at India-  
napolis at a still later date.

The Rushville Latin students have  
great hopes of winning many honors,  
and much interest is displayed in  
the event.

## PATRIOTIC SPEECH BY ANDERSON MAN

Oswald Ryan Delivers Address Com-  
memorating Washington's Birth-  
day to Kiwanis Club

FAVOR ORATORICAL CONTEST

Washington's birthday was ob-  
served today at the weekly luncheon  
of the Rushville Kiwanis club, and  
the patriotic address for the occasion  
was delivered by Oswald Ryan, an  
attorney of Anderson.

Mr. Ryan, who was one of the five  
men appointed by the United States  
Labor Board to investigate the im-  
migration problems from Europe's  
standpoint, last year, gave a most  
eloquent talk along patriotic lines,  
embodied in the memory of the birth-  
day of the first president. His sub-  
ject was, "Our heritage from Wash-  
ington."

Mrs. C. E. Walden sang a solo that  
was well received and applauded by  
the members. Among the guests was  
M. S. Cox of this city.

The Kiwanis club also endorsed  
the oratorical contest plan which is  
to be taken up by the Rushville high  
school on the study of the American  
constitution, and the good will of  
the club was pledged to the local un-  
dertaking.

## SIMMONS SUED AGAIN IN \$150,000 ACTION

Founder of Woman's Order of Ku  
Klux Klan, Made Defendant in  
Injunction Complaint

FILED BY THE SOCIETY

Atlanta, Ga., Feb. 21—The trou-  
bles of William J. Simmons, founder  
of the Ku Klux Klan were increased  
today as a result of his "peace"  
with Dr. Edward Evans, Imperial Wizard  
of the organization.

The Kamelia, the woman's organi-  
zation which he founded, recently  
announced he would be banished as  
a "traitor," today filed suit in dis-  
trict court for \$150,000 from Sim-  
mons.

The suit said Simmons had been  
paid \$500 for six months for writing  
rituals and making other preparations  
for the secret society.

The complaint charged the founder  
failed to carry out his part of the  
contract. In addition an injunction  
to prevent Simmons asking members  
of the Kamelia to become members  
of his newly formed secret order,  
was asked in the suit.

## RUSHVILLE "HI" GETS IN CONTEST

Will Take Part in Nation-wide Ora-  
torical Event to Select Best High  
School Orator

ALL COUNTY SCHOOLS INVITED

Rushville And County School Officials  
Endorse Contest—Rushville a  
Competition Center

The Rushville high school was de-  
finitely in the nation-wide high school  
oratorical contest today, following a  
visit here Wednesday of a represen-  
tative of the Indianapolis News,  
which is sponsoring the contest in In-  
diana.

It was stated today that an effort  
would be made to bring Rush county  
up to a one hundred per cent partici-  
pation in the contest by interesting  
every high school.

In co-operation with more than  
200 large newspapers of the country,  
The News is beginning a nation-wide  
quest for the secondary school pupils  
who shall write orations that best in-  
terpret our American governmental  
system. The purpose of the national  
oratorical contest is to increase in-  
terest in and respect for the Consti-  
tution of the United States.

J. H. Scholl, superintendent of the  
Rushville public schools, thus en-  
dorsed the contest today.

"The nation wide citizenship move-  
ment is a movement which will mean  
much to our country. I hope many  
pupils will take advantage of this  
contest for it will repay their effort."

B. D. Farthing, county superinten-  
dent of schools, gave his endorse-  
ment to the contest as follows:

"The nation-wide oratorical con-  
test which is now in the making, to  
decide who are the best high school  
orators in the United States in the in-  
terpretation of the Constitution  
seems to me to be a most worthy and  
far reaching educational movement.  
It is a step toward the development  
of this important phase of education  
in our public schools—and as such  
it merits my most hearty approval."

Much of the activity surrounding  
the contest will center in Rushville as  
this city has been selected as a com-  
petition center and will be known as  
district 20. County winners from a  
number of surrounding counties will  
come here for the district contest.  
Each high school will hold elimina-  
tion trials to select its representative  
and then the county high schools  
will compete here to name the county  
representative, who will in turn  
compete in the district event.

Grand Children File Objections When  
Will of Former Citizen is Pre-  
sented in Marion County

\$10,000 FOR RILEY HOSPITAL

Rushville K. of P. Lodge is Also  
Left \$5,000 by Terms of His 1922  
Will

SURVIVORS ALSO TO SHARE

Three Grandchildren Given \$2,500  
Each and Library, Woman's Coun-  
cil Are Remembered

Three grand children of the late  
Albert G. Reeve, Rushville citizen  
who died this week in Indianapolis,  
have filed objections to the admit-  
ting to probate of the will left by the de-  
ceased, in which he made provisions  
for many benefactors in large sums  
of money. The will was offered for  
probate in the Marion county circuit  
court, where the objections were  
immediately entered.

Foremost among the beneficiaries  
of the will, is the Riley Memorial  
hospital; which by the terms of the  
will was left \$10,000, and next in the  
list was the Rushville Knights of  
Pythias lodge, which was left \$5,000,  
divided equally between the subor-  
dinate lodge and the Uniform rank.

Each of the three grand children,  
who are the sole survivors of the de-  
ceased, was given \$2,500 in the sec-  
ond item of the will.

A dispatch from Indianapolis to-  
day stated that he attorneys and  
officers for the Riley Memorial hos-  
pital had launched an immediate at-  
tack for the share allotted to the  
hospital.

The will, which was attempted to  
be admitted to probate, and which is  
the last will of the deceased, was  
written May 15, 1922. Mr. Reeve,  
who had resided in Indianapolis since  
last summer, died at his home 2121  
Ashland Avenue Monday morning  
and was buried here yesterday af-  
ternoon.

The first item of the will he directs  
the payment of all bills. The second  
item, he directs the payment of  
\$2,500 each to his three grand chil-  
dren, Georgia Beatrice (Reeve) Car-  
ter, Sarah Lois Reeve, and Doris  
Johanna Reeve, who constitute the  
persons filing objections to the docu-  
ment.

In item three he devises to Com-  
pany 35, Ivy Uniform rank, K. of P.  
of Rushville, \$2,500 and also the  
same amount to Ivy lodge 27, K. of  
P. of Rushville.

Item four is a bequest of his en-  
tire library and the sum of \$500 to  
the Woman's Council of Rushville.

## M'ADOO AND COX IN PRESIDENTIAL RACE

Former Files His Statement in Illinois  
Primaries and Cox Speaks From  
Florida

BOTH PROMINENT DEMOCRATS

Springfield, Ill., Feb. 21—William  
G. McAdoo today formally entered  
the Illinois presidential preferential  
contest for democratic presidential  
nominee in the Illinois primary.

The petition was filed by W. J.  
Coleman of Chicago. The petition  
contained 4,997 signatures.

The petitions of Hiram Johnson  
and Calvin Coolidge as republican  
candidates for president already are  
on file. McAdoo is the first democ-  
ratic candidate to enter the Illinois pri-  
mary.

Miami, Fla., Feb. 21—Former Gov-  
ernor James M. Cox, of Ohio, Dem-  
ocratic standard bearer in 1920, is  
again a candidate for the presidency,  
but how far he will press his fight  
and what will be his major issues, he  
is not yet ready to say.

In his 1920 campaign Cox was a  
strong apostle of the League of Na-  
tions and in his speeches during the  
last two years he has consistently  
held failure of the United States to  
enter the league as responsible for  
many of the current ills, both domes-  
tic and international.

## PLANS ATTACK ON HIS CRITICS

William J. Burns, Department of Jus-  
tice Head, to Aid Daugherty in  
A Counter Attack

PROBABLY AGAINST WHEELER

No Developments Expected Today in  
Connection With Rumors That  
Daugherty Would Resign

Washington, Feb. 21—Attorney  
General Daugherty today called in  
William J. Burns, head of the de-  
partment of Justice secret service,  
to help him prepare a counter at-  
tack on his critics.

Burns and Rush Holland, assis-  
tant to Daugherty, spent several  
hours in Daugherty's apartment. It  
was intimated there might be a state-  
ment later replying to the attack on  
Daugherty by Senator Wheeler, Mont-  
ana, author of a resolution for an  
investigation of the Daugherty ad-  
ministration.

At the White House it was stated  
no developments were expected to-  
day in connection with the recom-  
mendations of administration sena-  
tors that President Coolidge asked  
Daugherty to resign.

Senator Wheeler's resolution will  
be taken up in the senate today or  
tomorrow White House officials said.

BY A. L. BRADFORD  
(U. P. Staff Correspondent)

Washington, Feb. 21—Attorney  
General Daugherty today was faced  
with the alternative of resigning from  
the cabinet "to relieve President"  
Coolidge from an embarrassing posi-  
tion, or undergoing senate condem-  
nation in a resolution similar to that  
adopted in the case of Secretary of  
the Navy Denby.

Daugherty, perhaps the most plain  
spoken executive in the administra-  
tion, has taken the attitude that his  
record is clean; that he doesn't care  
what the senate, or in fact, anyone  
else thinks; that he knows what he's  
about; that he's ready to fight it out  
with his accusers, and that he won't  
resign unless the president asks him  
to.

But Republican senators are not  
desirous of having any knockdown,  
drag out fight with the attorney gen-  
eral, whose ability has long been  
proved in rough and tumble politi-  
cal jams. Hence, they are exerting  
pressure both on President Coolidge  
and Daugherty himself to create a  
vacancy in the attorney generalship

## "Gets-It" Makes Corns Vanish

Even Surgeons don't cut their own corns. They use "Gets-It" to rid their feet of corn or callous pests. Why should you risk infection or a slip of your foot when it's so easy to end corns and callouses, quickly, completely, permanently. Two or three drops of "Gets-It" stops all corn pain—then the corn loosens so you can peel it right off with your finger or a knife. Try it today. E. Lawrence & Co., Chicago. ## Will of A. C. Reeve Discloses Important Bequests Locally

Continued from Page One

The Rushville public library item 5 is the bequest of \$500 to the woman's Council of the city of Rushville.

The East Hill cemetery association is given \$500 in item 6, for the purpose of future maintenance of his mausoleum and lot in the cemetery.

His grand daughter, Doris Reeve, a minor of Indianapolis, is given his violin and all records, in item 7 of the will. The Rush County Historical Society is given the sum of \$500 in item 8 of the document.

Item 9 of the will is the big bequest of \$10,000 to the James Whitcomb Riley memorial hospital for children at Indianapolis.

In item 10 disposal of a life estate in property of his late wife is made, in which it reverts to her family.

The remainder of the estate is directed in item 11 to be held in trust by the executor of the will, to invest as she may deem wise and best, and profits from it to be held for the education of the minor grand child, Doris Reeve, until she shall marry, or arrive at her full age of 21 years.

If the child should die before maturity, or not aspire for advance education, the will provides that these sums shall be turned over to the Riley Memorial hospital.

In item 12, the last part of the document, the deceased requests the appointment of Miss Anna L. Bohannon of this city as executor of the will, and that she be directed to carry out the provisions provided in the various items.

bers of the local guard company are in jail in connection with the alleged theft of equipment, estimated at \$3,500 by Captain Brann of the company. Captain Brann announced a few days ago that Louis Dagler and Meredith Horrall had made a confession concerning the thefts.

Raymond Finney, the third member to be arrested, also is held in jail on the military charge and is being questioned by the officers.

Just what the report of the state board will have to make, is being anxiously watched by Rushville citizens.

day after the most disagreeable storm of the season, but brilliant sunshine and a favorable weather forecast cheered the commuters.

The street cleaning department made little headway against snow and slush Wednesday. Nine thousand men quit work rather than face the slush and rain.

Two deaths were attributed to the storm and more than a score were injured.

## QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—bad breath—a dull, tired feeling—sick headache—torpid liver—constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands take them every night just to keep right. Try them. 15c and 30c.

Miss Myrtle McMichael is staying in Carlisle. Mrs. Wallace Brown visited at the home of Charlie Kennedy Wednesday.

Mrs. Minnie Piper spent Sunday evening at the home of Mr. and Mrs. Pressnell.

There was no services at the Christian church Sunday night owing to the condition of the weather.

## PLANS ATTACK ON HIS CRITICS

Continued from Page One without further furor. Late yesterday Senators Lodge and Pepper called on Mr. Coolidge to this end and today other Republican senators are getting into the play, mostly with Daugherty.

Since Mr. Coolidge, up to now has let it be known he would not ask for Daugherty's resignation unless specific evidence finding Daugherty culpable in the oil or other scandals were produced, the line of argument directed at Daugherty is that he should resign to spare the party unnecessary additional trouble.

## KILLED BY TRAIN TODAY

Man Related Here Meets Death This Morning at Anderson

Word was received here this morning of the death of Ben Hartzell of near Anderson, who was killed by a train on his way to work at the Remy plant in that city. Details concerning the affair were not learned, excepting that the machine in which he was riding to work was struck by the train.

The victim is well known here, and is related throughout the county, having married Miss Edith Hungerford of southwest of here. He also was a brother-in-law of Mrs. Dale Jackson of this city, who received the word this morning. Funeral arrangements were not learned.

## TOWN HAS BIRTHDAY

Rockville, Ind., Feb. 21.—Rockville is one hundred years old today. A celebration was held in the high school building in commemoration of the centennial of the establishment of the city. One of the features of the program was a letter from James H. Baker, 94 years old, giving some of the incidents in the early history of the city.

## Woman's Greatest Asset

Health is woman's greatest asset. Upon it depends charm, beauty, power to attract others, happiness and success, and it is what really makes life worth living. Thousands of women suffer from headaches, backache, nervousness, mental depression and mysterious pains, who could find immediate relief by taking Lydia E. Pinkham's Vegetable Compound which is made from roots and herbs. For nearly half a century this medicine has been recognized as the standard remedy for woman's ills.

**BIBLE THOUGHT**

FOR TODAY

Bible thoughts presented, will prove a  
guidance in life.Fear the Lord, and serve Him in  
truth with all your heart; for con-  
sider how great things He hath done  
for you.—1 Samuel 12: 24.**Farmers' Worst Sufferers**Not so long ago a man living out-  
side of Rush County went to an In-  
dianapolis bank and made arrange-  
ments to borrow some money which  
he expected to apply to some he al-  
ready had and buy a farm in Rush  
county.His preparations complete, he  
came here to make the purchase. A  
few days later he notified the bank  
that he would not need the loan as he  
did not buy the farm.Inquiry developed that the man did  
not want to own land in a place  
where everyone seemed to be "knock-  
ing" real estate, that there was no  
future to an investment in land in  
such a community.This condition will have to be eli-  
minated or Rush county land values  
are not going to come back as they  
should. Rush county farmers, and  
all other Rush county citizens, will  
have to get it through their heads  
that Rush county soil is the BEST  
soil on earth and therefore it is worth  
as much as any other land.A Rushville citizen was comment-  
ing on an editorial in the Daily Republi-  
can, urging the boosting of Rush  
county land, and a farmer standing  
nearby said that he did not agree  
because he could not be "two-faced".In other words, this farmer, in  
common with far too many others,  
believes that Rush county land is  
worth no more than that for which it  
has been selling.The truth of the matter is that  
Rush county land is just as good as  
it was when it was selling for \$250  
and \$300 an acre. The soil is just as  
fertile and the buildings to be found  
on Rush county farmers are just as  
modern and well kept.The only thing that has caused  
land values to decrease in Rush  
county is the attitude that farmers  
take, like the one noted above.Farmers, themselves, are the worst  
sufferers from the deflation. They ofall others should be the most ready  
and willing to keep land values up.  
Constant reiteration that land is  
worth no more than it is selling for  
will only drive prices lower.Every loyal resident of Rush coun-  
ty should begin this day to talk  
about the high quality of Rush coun-  
ty land. There is none better. This is  
the fact that we should all keep  
foremost in our minds and that we  
should always impress on the stran-  
ger.**A Symbol of Democracy**Press dispatches from Berlin re-  
porting progress being made by the  
committee appointed by the Allied  
Reparations Commission to investi-  
gate German finances, report an ul-  
tra-official dinner given by Amba-  
sador Houghton at which all the im-  
portant diplomats and officials gath-  
ered to meet the American commis-  
sioners—General Dawes, O. D. Young  
and Henry Robinson.As a symbol of the democracy  
which this country stands for and  
the business-like procedure which it  
expects in settling the reparations  
controversy, General Dawes calmly  
lit up his old briar pipe just after the  
"fish course". In other words, pomp  
and ceremony mean nothing to  
Dawes. Neither are they part of this  
nation's calculation.We want action looking toward  
real world peace, and Dawes and the  
American members on his committee  
mean to get action or know the reason  
why. Red-tape diplomacy, delays  
and evasions have been carried on  
for five years. Dawes, smoking his  
briar pipe at the end of the fish  
course, is typical of his abhorrence  
of useless delay such as has sur-  
rounded past negotiations.Enemies of plans for settlement of  
reparations question can take their  
cue from Dawes and his pipe—his  
committee means business and there  
is no use trying to fool them.**FIFTEEN YEARS**

Suggestions-Contribution  
Letters  
to the  
Editor****Make It Statewide**

The Daily Republican:

Your interesting editorial recent-  
ly published regarding land values  
in Rush County, also copied in The  
Indianapolis Star, taking the attitude  
of boosting, should have been given  
a box on the front page.The attitude is worth making  
state wide as in California and Flor-  
ida.You have not mentioned that as a  
county we not only rank first in the  
number of hogs but first in quality.  
We also rank first in the production  
of corn; having recently passed  
Johnson and Benton Counties.These two facts would place Rush  
county second to none as an agri-  
cultural county. We also have the  
best churches, the best schools, the  
best farmers, the best merchants, the  
best roads, the best and cheapest  
telephone system in the state, the  
best court house, the best mail ser-  
vice, the best newspaper, the best  
Farm Bureau and the best drinking  
water, not to mention the largest un-  
incorporated town in the state, the  
world's fastest one-mile runner of  
high school age, the cleanest and the  
fastest basketball team, the largest  
fires and fire sales, and our county  
is also in the gas belt.As a state Indiana has wonderful  
advantages over those weaker sisters  
California and Florida, which you re-  
fer to. We have the center of popula-  
tion, making it geographically locat-  
ed the best of any state in the Union  
for reaching every market. That  
means that we are closer to more  
people to feed than any other state.We have 2,000 miles of transporta-  
tion to our advantage over Califor-  
nia in reaching the eastern markets  
where California markets it's beans,  
nuts, eggs and fruits that we can  
produce and do produce equally as  
well and even better than they can.Their produce is two weeks old when  
it reaches Indiana on its way East.Our soil is richer and our rainfall  
greater than in California or Florida.  
They cannot raise the corn, wheat,  
hogs and cattle like we do. The cli-  
mate does not agree with them. We  
have a better climate than they and  
it is not so monotonous. We have  
freezing weather that kills weeds,  
insects and pests as we sit by the  
fire and read, while they have to hoe,  
poison, spray and trap the year  
around to free their crops from these  
things which nature helps us to con-  
trol.We ought not to look to any state  
for land values; we ought to and we  
will show them what real land values  
are. Our products are more vital and  
more important than their's and the  
consumers could live on apples, on-  
ions, bread, beef, pork, and canned  
goods if an earthquake should shake  
all of the lemons, nuts and oranges  
off of the trees in California before  
they commenced to get ripe, or a tidal  
wave should carry all of Flori-  
da's melons into the Gulf of Mexico.Indiana is more important than  
either or both California or Florida.  
We raise the best livestock, the best  
dairy products, the most onions, the  
most canning crops, such as sugar  
corn, beans, cabbage, tomatoes and  
peas. We grow the reddest and  
sweetest strawberries, the best flav-  
ored peppermint, the smoothest, larg-  
est and whitest potatoes, the best  
flavored melons, the most pop corn,  
the sweetest maple syrup, the bestfeeding corn, the best cracker flour  
is made from our wheat. Our peaches  
are second to none in color and flav-  
or. Our apple orchards grow more  
and better flavored fruit than any  
other state. We raise the tallest to-  
bacco of the finest quality with the  
broadest leaves of any state, and be-  
sides these we raise pickles, celery,  
etc., in car load quantities.Then California boasts of their  
men; We have men that are equally  
as intelligent. Hoosiers are noted all  
over the Union for being courteous,  
cautious, and shrewd. Our politicians  
are the most portly, and get their  
names in print or keep them out at  
will more than any other politicians.  
We have one of the largest livestock  
markets and the largest truck market  
in the world. The most dangerous lo-  
comotives that run faster, hit more  
automobiles, throw them farther and  
kill more people than any other loco-  
motives. We have more traction lines  
(2,000 miles in the state) that start  
quicker, pass more red blocks, run  
faster and stop quicker with more  
casualties than any other traction  
lines.Our women are prettier than those  
so-called California and Florida  
bathing beauties and they shoot  
straighter, wear lower necks, short-  
er skirts, and kick up more fuss than  
any other women. There is only one  
thing that California has on Indiana  
and that has helped turn the tick for  
them. That is their system of coop-  
erating marketing on the commodity  
basis of which they boast as much of  
as their sunshine and flowers. We  
farmers of Indiana are now learning  
that. We are learning that by boost-  
ing our neighbor we are boosting our-  
selves. They passed through the same  
period we are passing through now  
several years ago.A knocker never wins and a win-  
ner never knocks. Let's all be win-  
ners and put land values in Rush  
county and Indiana up where they  
belong.

## NEWSY GOSSIP IN THE WORLD OF SPORT

KING OF BEASTS  
ARE READY TO GOHITTIN' 'EM  
—AND—  
MISSIN' 'EM

Closer and closer draws the hour when the second "Battle of the Century" will take place. Nearer and nearer the time draws to Crush Connersville.

## CRUSH CONNERSVILLE

Every Lion should watch his man, and let's keep the Ikimiks from getting started. Watch your fouls, and play Connersville Friday night, like you did Richmond last week, only don't let 'em start a last minute rally.

## CRUSH CONNERSVILLE

Show the Ikimiks that Lightning won't strike twice in the same place.

## CRUSH CONNERSVILLE

The postoffice gang takes a holiday too Friday, so that they can get in line early Friday night. Even the rural route carriers are not going out in the morning. Pretty soft for the bankers and postal employees that the big game comes on a lucky Friday.

## CRUSH CONNERSVILLE

Easiest line to write this week is the words crush Connersville, and they started in Monday in small type increasing in size each day showing that we're emphatic about the idea. And here it goes again.

## CRUSH CONNERSVILLE

The basketball, World's mythical Big Ten, turns out to a Big Dozen this week, with several funny ideas in the list. Muncie is rated ahead of Shelbyville, Bedford away in front of Richmond, and Muncie tied with Anderson for first place. Moscow gets honorable mention, along with Lets. We'd hate to have that guy keep tab on our bank book. There are two teams not mentioned in the honorable list, which should have recognition—Hamburg and Peppertown. Milroy, Carthage, Raleigh, Webb and Rushville don't seem to be downhearted because their names are not mentioned, because they know that they have the stuff that could beat half of those teams in the list—in

NEW GERMAN DISCOVERY  
PROMISES RELIEF FROM  
RHEUMATIC PAINS

From Leipzig, Germany, comes a report of the discovery of a new method for the relief of pain in cases of rheumatism, gout, neuritis and neuralgia without the use of internal medicines. The discoverer, Jacob Buhler, of Stuttgart, Germany, has undoubtedly proved that in even the most advanced and stubborn cases the sufferer often secure relief the very first day.

Buhler proceeded on the theory that rheumatism is often caused by internal abscesses (such as a blind pimple in a tooth), giving off poisons which are absorbed by the blood and carried to the joints and muscles where they set up inflammation and intense pain. When the inflammation appears in the muscles or joints, it takes the form of rheumatism, but where the delicate nerve sheath becomes inflamed it causes neuritis or neuralgia. To neutralize these poisons Buhler compounded a new form of oil intended to penetrate to the affected joints and muscles and neutralize the poisons in much the same way that bicarbonate of soda or magnesium neutralizes an acid stomach. As a result the aching joints are soothed, the annoying pains and inflammation, stiffness and swelling are relieved in many instances with even the first few applications.

Note: The oil referred to above is known in this country as Buhler Oil. At the present time, the following druggists report that they have secured a limited quantity of Buhler Oil for distribution in this city. So remarkable have been the results from the use of Buhler Oil that these druggists are giving their customers a written guarantee to refund the price in full to all purchasers of Buhler Oil who fail to get immediate relief. Big Ten ratings will soon tumble. The sectionals will tell the tale.

Carthage at Morristown, Arlington at Raleigh and Manilla at Moscow are among the closing games in the county before the sectional.

## CRUSH CONNERSVILLE

Hagerstown tackles Mooreland, Pendleton at Knightstown, Brookville at Greensburg and Cathedral of Indianapolis at Richmond are also some interesting tilts for Friday night.

## CRUSH CONNERSVILLE

Newcastle defeated Greencastle, in the battle of castles some weeks ago, and this battle will be played over again Friday night, down at Greencastle. The Trojans have polished up their wooden horse, and are due for a smashing victory.

## CRUSH CONNERSVILLE

Columbus ends their season with two games away from home, playing at Frankfort and Logansport. Both are hard games but in these days of upsets, the Bull Dogs wouldn't surprise us much by knocking the props out from under these teams.

## CRUSH CONNERSVILLE

Dear Hitin' 'em—We're writing again after staying out of your column for so long. We hated to 'but in' on those True Moscow fans. Here is the way the team feels about it; they know that it has taken five players to win every game that they have won this year. No two players nor three could have done it.

Gosnell, Hagerford, Tillison, Reber and McAhren will play their last game in high school against Manilla Friday night at Blue Ridge. Yours, Hash and Hash, Po.

## WE'RE GOINN' TO WATCH 'EM

The Basketball World says: Little Brownsburg, one of the most dangerous of the dark horse candidates, stopped Shortridge, 32 to 28. Watch Brownsburg, they may upset you somewhere.

The game between Connersville and Newcastle last Saturday night must have been a rough and tumble affair, judging from the 29 foul goals that Connersville made. The following in the Connersville News-Examiner speaks of the points:

Dear Side Lights: It may be interesting to you to know that against Newcastle the Spartans made 29 out of 36 attempts at the foul line 806 per cent. The field goal percentage against the Trojans was 218. The foul goal percentage was 800. Here's the total points for the season to date: C. H. S. 644; Opponents; 508.

## ROARIN' LIONS, RARIN' TO GO

Hilligoss, McNamara, Snoddy, Walker, Comella, Newbold and the rest of the King of Beasts are seen above making a running start toward the Ikimiks. By the look in their eyes, you can tell that they fully intend to crush Connersville here Friday night. The above picture is the best that we have of the Rushville team. Before having a "regular" picture taken, perhaps they are waiting to win the state title. The real truth about not having a picture is that the new basketball suits have not arrived, and they will probably be here in time for the team next year.

## GIRL'S TOURNEY IS DELAYED

Event For Saturday Will Be Held At A Later Date

The Girl's basketball tourney for Saturday was called off today, and will be held at a later date, probably March 8 or 15.

The icy condition of the roads and the sickness among many school children caused the action to be taken today to delay the tourney until sometime next month. On account of the roads being in such a bad condition, the attendance would be reduced. A. L. Trester, secretary of the state association, was called and consented to permit the girls to play their tourney even after the sectional tourneys, which is contrary to the rules for the boys teams. The date was not definitely decided and will be either the second or third Saturday in March.

—Drippin's, Richmond Item

## CRUSH CONNERSVILLE

Don't Connersville know that Shelbyville and Rushville have made all arrangements for a special train over the Pennsylvania railroad for the Richmond regionals.

## CRUSH CONNERSVILLE

YOU SURE IS A TRUTHFUL LAD, MARKIN' 'EM UP

Hitin' 'em of Rushville has adopted a slogan now, having got into the line of sloganeers. His newest slogan is "Crush Connersville." Here's hoping you have better luck trying to crush them than we did trying to crouch them last Saturday night. Rushville is practicing hard for their battle of the century Friday night and the Lions would rather win from C'-ville than any team in the state, barring none not even Passaic.

—Newcastle Courier

## CRUSH CONNERSVILLE

TEN POINTS AIN'T NOthin' TO WHAT IT WILL BE

Rushville likes slogans, and takes great stock in them. They whipped us with one, and they are trying it on Connersville by interlining Hitin' 'Em's sport column with unescapable demands to "Crush Connersville." We are not certain about the fighting qualities of an Ikimik, as the dictionary is vague on that point, but we do know the Lions can claw like fury. We give Rushville 10 points.

—Hardwood Hamper, Columbus

## CRUSH CONNERSVILLE

Before Crushing Connersville tomorrow night, Rushville fans must avoid being crushed by getting in line early at the door. They swing open at six bells. After that we are goin' to crush Connersville.

North Vernon—Assurance of a new federal building here within the next twelve months seems assured with appropriation of \$49,000 for the work.

## Mays Should Win For Reds

HENRY L. FARRELL  
(United Press Sports Editor)

New York, Feb. 21—Change of scenery usually works to benefit of an athlete who has fallen into a rut. It invariably improves an athlete who wants the scenery changed.

For these reasons it was agreed among baseball men here that the transfer from the New York Yankees to the Cincinnati Reds would help Carl Mays, the only submarine pitcher in captivity.

Mays has all the natural qualifications of a great pitcher. He is young, as baseball players are rated, he is game and he is the most willing toiler in baseball.

He didn't get along with the New York Yankees because he didn't like his surrounding and he couldn't get along with the manager of the club.

Figuring that he would be happier in Cincinnati, that he can get along with the genial Pat Moran and that his underhand delivery ought to go good against National League batters who have never looked at it, the wise baseball men figured that he ought to be one of the best pitchers on the fine staff which the Reds have gathered.

For some reason, John McGraw expresses the opinion that Mays will be a bust for Moran. Perhaps McGraw rates him on the temperament that he showed with the Yankees and figured that he would be with the Reds just what he was with the Yankees—a crabby hermit, sulky

and hard to get along with.

If Mays wants to pitch in Cincinnati, if he gets a chance to do a lot of work and gets away good, he ought to win a lot of games, because he can pitch.

Gathering from what he said in an interview with Tompny Laird, the able sport editor of the San Francisco News, Mays not only wants to pitch for Pat Moran but he is 'crazy' to get started.

Mays told Laird it was the most pleasant surprise of his life when he heard that he had been released from the Yanks to the Reds.

"I have been trying for two years to get away from Huggins," he said, "and I had just about given up hope. I broke into the majors under Bill Carrigan, and Pat Moran is just like him. I naturally desired to play with the Reds, and you can imagine how pleased I was over the transfer."

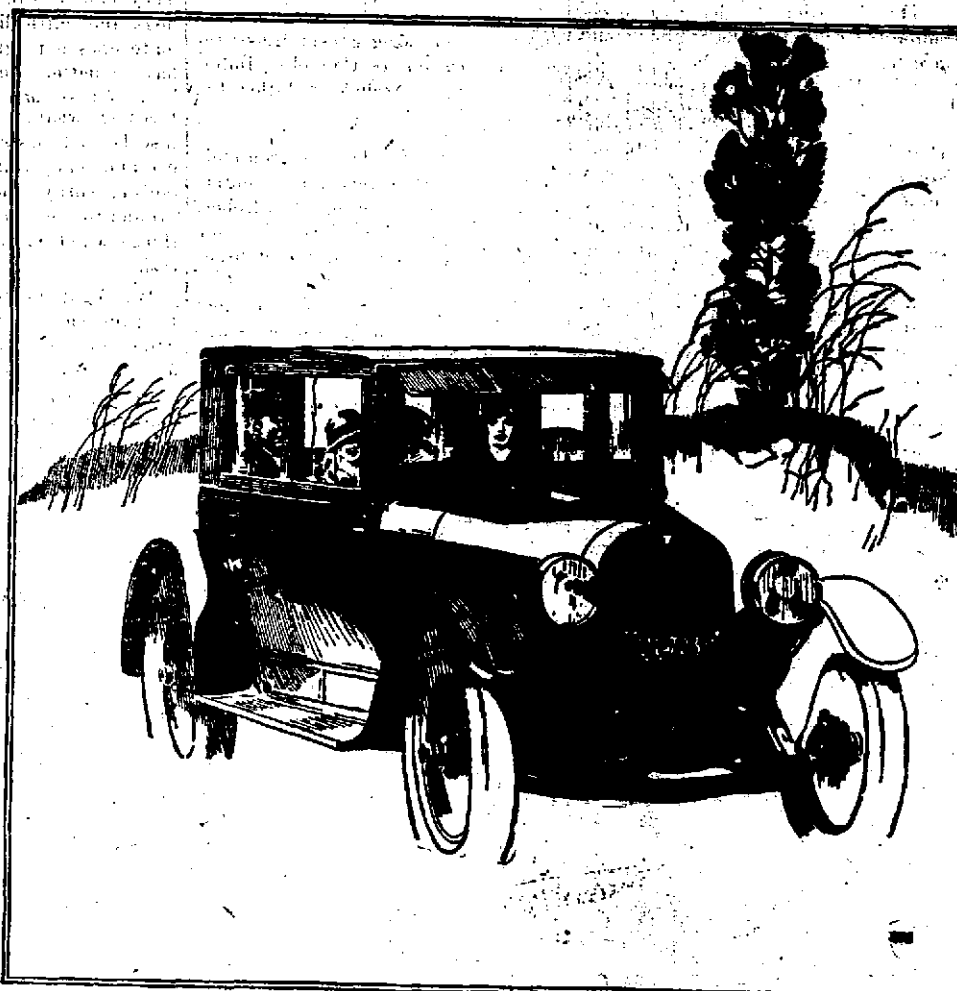

Mays said that Huggins didn't deserve much credit because he plays favorites too much and he blamed the Yankee manager for making a bust out of Frank O'Doul, because he wouldn't give him a chance.

The former Yankee pitcher said the Reds had given him the best contract he ever had, and that he was going to work his head off to make good for Pat Moran.

The Vision of George Washington

When the Father of His Country fought for its freedom, it may be that, with the prophetic faculty of great men, he saw at times a vision of the "wonders that would be" in the vast, new nation. He must have dreamed for us that we would live up to his own high standards of courage, freedom and honor. His birthday is a fitting time for our silent resolve to cherish those ideals and do our best to live up to them.

### NAMED AFTER WAR PRESIDENT

Junior High School at Columbus Is Called Wilson School

Columbus, Ind., Feb. 21—In honor of America's great War President, the new junior high school building was given the name, the Wilson school, by the city school board at its meeting yesterday afternoon.

A bridge tablet, bearing the new name of the building, probably will be placed in the entrance lobby. The Wilson building, which was opened for school purposes September 16, 1923, now has an enrollment of nearly 300 pupils. It is the newest and most modern building in the city used for class purposes.

stagnant economic condition, with neither a depression nor a period of expansion in prospect.

1. Unemployment. Managers of a number of Indiana hotels have reported that only 1,500 persons desire work in the state capital are idle. They say that practically all the unemployment will be eliminated by spring, when building construction is resumed on a large scale.

2. Insurance men are preparing to expand their business through intensive sales efforts.

3. Bankers expect, commercial loans to grow less, showing that industry is tightening its strings for strong competition and that business is generally being put on a more sound basis.

The steel market is booming now. All these facts combined overshadow the most severe pessimism. They show that the calamity howlers are howling in vain and that 1924 will end on the blue instead of the red side of the ledger.

Of course, the Teapot Dome scandal and the Hollings failure and other similar occurrences have depressed the commercial world to some extent, but the depression has not put a damper on business. The securities markets, were affected temporarily in the Hollings case and the confidence of the public in its government was shaken by the national and state government fiascos, but underneath it all there is a fundamental belief that everything will turn out all right. Such occurrences will only tend to make the public watch its investments more carefully and keep in closer touch with the government that serves them and elect more substantial men of public office.

## MOVIES

### Freckles and His Friends

**Three Days at Cattle**  
All the world recently watched the experiment of Dr. Thomas Webster Edgar, famous New York physician, in transferring a monkey gland to Irving R. Bacon, writer, who felt his vitality ebbing and longed for a new lease on life.

The operation caused comment everywhere. Now a motion picture is being made around a similar idea. What would happen if a man were fitted out with monkey glands? That is the question which is asked and answered speculatively in a feature film made at the Golywyn Studios with Lon Chaney playing the two leading roles—the physician who performs the experiment and the monstrosity which results from the operation. This melodramatic film, "A Blind Bargain," founded upon Barry Pain's novel, "The Octave of

Claudius," will be the attraction at the Castle theatre for 3 days, beginning today.

Many medical authorities were consulted in the preparation of the scenario. Dr. Henry Conway, a Los Angeles physician, was engaged as technical adviser and was on the set constantly. In speaking of the theory propounded by the film, a prominent physician said:

"The glands of man differ both chemically and in molecular structure from those of the other species of mammalia. Therefore, I do not

believe that the two could be mixed. In the picture, "A Blind Bargain," a distinguished but half-mad physician has made a partial transfusion of monkey glands into a man, who then takes on the facial expression of an ape. Chaney, master of make-up, gives the role an interpretation which is causing much comment among the medical fraternity. Wallace Worsley directed it. Associated with Lon Chaney in the cast are Jacqueline Logan, ex "Follies" beauty; Raymond McKee, Fontaine LeRue, Virginia True Broadman, Aggie Herring and Virginia Madison.

### "The Eternal Flame"

One of the tremendously dramatic scenes in Norma Talmadge's fascinating starring vehicle, "The Eternal Flame," which is the first National attraction at the Princess Theatre today is that which depicts General de Montreuil preparing to brand the great count beauty whom he believes has ridiculed his love.

The Duchess of Langens, wonderfully enacted by Norma Talmadge, offers her beauty gladly, wildly, in an abandonment of love, when he produces his judgment of terrible revenge on her, and waits unflinchingly for him to brand her forehead with the mark of infamy.

The scene takes place in a room of forbidding austerity. Through the curtains of a doorway the flare of fire and the movement of ominous figures of the men who are preparing the iron can be seen. De Montreuil enters and denounces the Duchess. A masked man hands him the branding iron. The Duchess bares her forehead to the receive the terrible stigma. Then the General finds he cannot mar her glorious beauty.

She is freed, broken hearted. But a love such as their cannot forever be spoiled by misunderstanding, and in a most fascinating chain of events the threatened tragedy of hearts is transformed into a gloriously happy romance.

Kokomo—George T. Brown, farmer near here, claims the record for Howard county with his statement that there are twenty legal voters in his family.

Bourbon—Every pastor of the Go-shen district of the Northern Indiana Conference of the Methodist Episcopal church is expected to attend the district meeting Feb. 26-27.

### A Raw, Sore Throat

Mustero's won't burn like the old-fashioned mustard plaster. Just spread it on with your finger. It penetrates to the sore spot with a gentle tingle, loosens the congestion and draws out the soreness and pain.

Mustero's is a clean, white ointment made with oil of mustard. It is the only quick relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frostbites, colds on the chest. Keep it handy for instant use.

To Mothers: Mustero's is made in milder form for babies and small children. Ask for Children's Mustero's. 35c and 65c jars and tubes; the vital size, \$3.00.

# A Business Story

Rich in meaning to every motor car buyer

How Studebaker reached the heights

THE story of Studebaker has been told by many men in many ways. Now let us tell it to you.

Studebaker growth has in late years been Motordom's sensation. Sales have mounted until last year 145,167 buyers of quality cars selected Studebakers. They paid \$201,000,000 for them.

All must realize that a new situation has arisen in high-grade cars. You who are interested should now analyze the reasons.

### 72-year traditions

The Studebaker principles have become traditions in their 72 years of existence. They have never wavered. In all changing conditions they have brought new luster to that name.

Men come and go, but a name like this becomes a heritage to foster and enhance. That's what we've done — we who have that name in keeping for a time.

Studebaker has always been a leader. For two generations it led in horse-drawn vehicles, now products of the past.

Most of you remember Studebaker carriages — queens of their time. They were used by multitudes of people who loved quality and style.

When motor cars succeeded them, Studebaker became the logical leader in that field. Any other place would have been an anomaly.

### The only way to the top

A concern of this age has one fact ingrafted in its fiber. The only way to leadership is through super-service.

The leader must excel in all you seek — in quality, in beauty and in value. There is no other way to the top. Every stretch of the road is strewn with wrecks of those who tried another.

What others say — not what you say — determines your place in the long run. In every field of endeavor one must accept that fact.

We had the money, the plants, the prestige. We had the incentive of Studebaker traditions. In time we secured the men.

We told those men to build for us the utmost in fine motor cars, regardless of all costs. We pledged them our good faith and our resources.

### The cost was \$50,000,000

We built new factories — modern plants. We fitted them with new equipment — 12,500 up-to-date ma-

15% to conform to those standards exactly.

We invested \$8,000,000 in a drop forge plant to make all our own drop forgings. \$10,000,000 in body plants, to build all bodies to our standards.

We employed 1,200 skilled inspectors to see that all standards were fulfilled. There are 30,000 inspections on Studebaker cars during manufacture, before they go out from the factory.

### That's the whole story

That's about the whole story. We simply followed the never-changing Studebaker principles. We gave to our buyers the utmost — values they could not match. Then they turned by tens of thousands to Studebaker cars.

Over 750,000 of those cars have gone out. Their performance has developed a demand for 150,000 per year.

Every increase in sales brought a lowered cost, which we promptly gave our buyers. Today these fine cars are offering values which no rival can approach. They have made us the world's largest builders of quality cars.

### We deserve a hearing

Now we deserve a hearing. All who consider a car at \$1,000 or over should learn what Studebaker offers. That in fairness to yourself and us. Check one by one the advantages we offer. You'll find them by the score.

Remember that 145,167 who did that last year chose a Studebaker car. There are nine chances in ten that you'll do it.

Consider our record, our accomplishments, our policies and principles. Consider that we have \$90,000,000 at stake on satisfying men like you. Don't buy a car in this high-grade class without seeing what we give.

## Find Out Why

People paid \$201,000,000 last year for Studebaker cars.

The result is now a demand for 150,000 per year.

Over \$50,000,000 in modern plants and equipment to build the finest of fine cars.

One of these cars, built in 1918, has run 475,000 miles. That means 80 years of ordinary service. In December this car made the trip from coast to coast.

Of the \$50,000,000 in our plants and equipment, \$32,000,000 has been invested in the past five years. So it represents the last word in efficient manufacture.

We established a Department of Methods and Standards, to fix for every Studebaker detail the maximum of quality.

We created a Bureau of Research and Experiment, employing 125 skilled men. They make 500,000 tests per year to maintain our supremacy.

They fixed countless standards, including 35 separate formulas for steels. Then on the most important steels we offered makers a bonus of

## Rheumatism That Stays on Tho Teeth and Tonsils are Gone

Chiropractic Health Talk — No. 53.  
By H. V. McCully, D. C., Ph. C.

So-called Rheumatism is a painful condition of some or all of the muscles of the body, and is the result of the irritation of poisons and toxins upon them. The retention in the body of these poisons may also cause pus pockets at the root of the teeth, diseased tonsils, etc.

When any of these conditions are present it is a certainty that the organs of elimination are not receiving their full supply of life force, due to the nerves supplying them being pressed on at the point where they leave the spine.

We drive straight at the cause by relieving the pressure on the nerves and the poisons are eliminated.

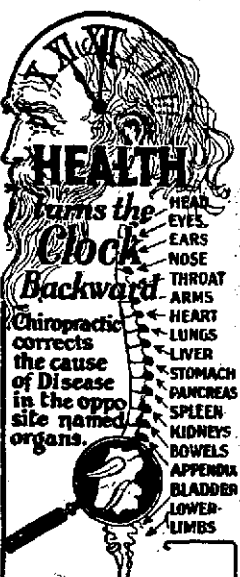

There is no substitute for our Chiropractic Spinal Adjustments in these conditions.

## Operations Failed But Chiropractic Succeeded

"I was confined to my bed with what the doctors said was sciatica rheumatism due to the bad condition of my teeth and tonsils. I had all my teeth pulled. Then I went to Hot Springs, Ark. The physician there said my tonsils were responsible and removed them. After this I took a thorough course of baths. I returned home in May still suffering and growing worse. Again I was in bed. Chiropractic was advised and I tried it. After six adjustments there was some improvement. I continued and was able to get about with a cane. Now I am well, and I have been able to return to my work as a railroad conductor. I am fifty-eight and I have been so much benefited that I want everyone to know."—C. R. Blackley, Chiropractic Research Bureau, Statement No. 1385H.
